Since our natural gas account switched from Union Gas to Enbridge our cost has increased ridiculously. We are on the monthly budget plan. Two years ago the monthly cost was in the neighbourhood of \$75 per month. By the end of July we would have a credit balance meaning we didn't owe anything in August. Now that Enbridge is the supplier our monthly budget payment is \$111. This past August we had to pay the full budget amount plus extra to make up for total usage over the previous 11 months. Our consumption of natural gas has not changed significantly from year to year. Something is wrong with this picture. I definitely do not think Enbridge should be granted the okay for yet another price increase.
