I am a senior citizen on a fixed pension and I pray the application to increase rates will be denied. The cost of living these days is out of control. Last year, my heating bill for January 2022 went from \$150 to \$300!!! Our home's thermostat is consistently set at either 67°F or 68°F in the winter months. We freeze!! When I called Enbridge to enquire about the increase I was told the rate changed from .23 per cubic meter to .35 per cubic meter! I honestly don't know how we will manage should there be another increase. Please, please deny this application for the sake of not only seniors but everyone reeling from the remaining effects of the pandemic and the Russian/Ukraine war
