I would like to submit my rejection of rate increases due to the detrimental effect it will have on my single income household. With the current inflation I am already struggling to keep up with my utility bills, groceries and rent. I work full time and support a child, a husband and a child going to post secondary education. I wouldn't consider my household to be low-income but with the cost of living increasing everyday in a couple of years time I am guessing my household will be soon. I am one family already struggling to stay afloat and there are many other families in worse situations.
