As a customer of Enbridge gas who is currently on Ontario disability support program and struggling to make ends meet I submit to this council that I would consider a rate increase of my monthly natural gas bill from Enbridge to be beyond my financial capabilities. It would force me to shut off my household gas supply and subsequently close my account with this corporation.

Regrettably I am already paying them \$68 per month as a single man living alone and using their services to only heat my households water and nothing more. I pay Enbridge more to heat my water than I do to the city if Orillia to deliver fresh municipal water to my house (\$55 vs \$68). They are making substantial profits at the expense of Ontario's middle and low-income families. Enbridge Inc revenue for the twelve months ending September 30, 2022 was \$41.047 Billion. They do not require a penny more. As a disabled person in Ontario I deserve financial security and the ability to live within my means in these times of economic hardship.

Thank you all for your time and consideration in this matter, take care.
