Regarding EB-2022-0200 application for rate increase for energy. Please be informed that I do not agree with Enbridge getting more money for their energy. As you know SW Ontario has over 6000 active wells which helps in keeping costs down. I suggest that the CEO salary which is in excess of 12M is way too much for one person to get in a year. Even their engineers are getting in excess of 167K per year. Average Canadian Household Income for 2022

The average household annual wage in Canada is \$75,452 for last year and has remained relatively consistent in 2022.

Thank you
