

CANADIAN NIAGARA POWER INC.

A FORTIS ONTARIO
Company

January 5, 2023
Sent via email

Ms. Nancy Marconi
Registrar
Ontario Energy Board
2300 Yonge Street, 27th floor
Toronto, ON M4P 1E4

Dear Ms. Marconi:

Re: EB-2022-0019 Canadian Niagara Power Inc. 2023 IRM Application

In its Decision and Order in the above-referenced case dated December 8, 2022, the OEB ordered, among other items, that:

“Canadian Niagara Power Inc. shall notify the Ontario Energy Board when it has corrected its settlement error with the Independent Electricity System Operator.”

CNPI is writing to confirm that the requisite correcting entries have now been posted and the settlement has been submitted to the IESO through Hydro One, as of January 5, 2023. CNPI has made this settlement at the earliest opportunity following receipt of the OEB’s Decision and Order on December 8, 2022. CNPI is not aware of any mechanisms to make submissions to the IESO outside of the monthly submissions made through the IESO’s portal, which is only open during the first four business days of the month.

Please do not hesitate to contact me directly if you have questions.

Sincerely,

Oana Stefan
Manager, Regulatory Affairs
