The price of natural gas has plummeted , however my bill has increased from \$71 to \$111 , around 60 percent up from past year. When it is adding to Walmart or No Frills bill it is increasing their bills and increasing inflation. I get impacted indirectly. Their greed will result in bankruptcy of the common people. Why all of sudden people who are paying 60 percent up on the gas bills have to pay additional storage for the heating.

There is no reason needed for putting this expense .

It is just a corporate greed.

Pls find the link saying gas prices are declining.
