LETTER OF COMMENT

Comments:

What is the exact 'change in rates' that Enbridge wants to make to our costs? They are not forthcoming with this, and the invitation to participate in this forum with no context is not appropriate to say the least. We hear about a change in rates, will they be higher, lower, by how much? I do not appreciate how this is being carried out by Enbridge. They need to respect and trust their customers enough to be upfront. This is neither of those things. OEB, please call them to a higher standard!
