I strongly disagree with approving this application. I currently earn an above average wage and I am barely getting by with all of the increased living costs (i.e. high house prices, increased food/gas prices etc). If I can barely make ends meet on an above average perspective wage, I don't understand how lower income families are expected to survive in this community. Increasing gas prices will only further add to the unaffordability of living expenses. Please don't approve this application, as doing so will bring so many consequences to the community.
