Re: EB-2022-0200

To Whom It May Concern:

This letter is in response to Enbridge notifying us of their application to change its natural gas rates and other charges.

As seniors, my husband and I are living on our government pensions by being frugal with our spending. No vacations, no long trips, staying put day to day to keep expenses manageable on our pensions.

With the cost of food and fuel continuing to escalate and mortgage rates going up, we wonder how much longer we can continue.

On top of this you have companies like Enbridge, and the hydro companies that continue to raise their prices. How can these companies who make billions year over year keep getting granted increases by the Ontario Energy Board. It's time somebody stands up and says "enough is enough".

Our savings are dwindling, Enbridge & Hydro companies make billions – where is the fairness?

We would appreciate being informed of the OEB's decision in this matter.

Regards,
