Dear Mr. Rickel:

**Re: NextBridge Infrastructure LP
Quarterly Report on the East-West Tie Project
Board File No.: EB-2017-0182**

This acknowledges receipt on January 20, 2023 of the quarterly report (Report) on the progress of the East-West Tie Project (Project) for the period from September 1, 2022 to December 31, 2022.

On June 6, 2022, the OEB issued a letter stating that NextBridge should continue to file quarterly reports, in accordance with the requirements previously established by the OEB, until all land restorations activities related to the Project are completed. The OEB also required NextBridge to file final construction costs for the Project.

NextBridge's Report provides the Project's final construction costs and states that all land restoration activities are complete. The OEB therefore considers NextBridge's reporting obligation to be met with this latest Report and no further reports need to be filed.

Please direct any questions relating to this matter to Michael Price, Senior Advisor, at Michael.Price@oeb.ca.

Regards,

Brian Hewson
Vice President, Consumer Protection & Industry Performance
