Toronto, Ontario M4P 1E4

Dear Ms. Marconi:

Re: EB-2023-0003 – Engagement on Distributor Resilience, Responsiveness and Cost Efficiency

We are writing on behalf of Environmental Defence to request participant status and cost award eligibility in the above stakeholder meeting.

Nature of Interest

Environmental Defence seeks participant status and costs eligibility as a leading environmental organization that represents both the public interest in environmental protection and the interests of consumers whose energy bills can be reduced through measures that lower both costs and environmental impacts. Environmental Defence is interested in how LDCs are preparing for extreme weather events, particularly with increased electrification due to energy decarbonization.

Grounds for Eligibility and Need for Funding

Environmental Defence has been granted intervenor status, participant status, and costs eligibility in many proceedings before the Ontario Energy Board. Environmental Defence is eligible for an award of costs under section 3.03(a) and (b) of the Practice Direction on Costs Awards as it represents “an interest or policy perspective relevant to the Board’s Mandate,” including environmental protection, and the “direct interest of “consumers” whose energy bills can be reduced through increased distributed energy resources, energy efficiency, demand response, innovation, and other similar such means.

Environmental Defence has no funding to participate in this process without an award of costs eligibility.

Counsel and Consultant

Environmental Defence's energy consultant is Jack Gibbons. Mr. Gibbons has over 35 years of experience with Ontario energy regulation and Ontario Energy Board matters.

Environmental Defence's legal counsel is Kent Elson. Mr. Elson has over ten years of experience acting in Ontario Energy Board matters.

Environmental Defence's consultant and counsel have a long track record of providing highly relevant, responsible, and non-duplicative representation in Ontario Energy Board proceedings.

Further Detailed Regarding Environmental Defence

A. Mandate and Objectives of Environmental Defence

Environmental Defence has been working since 1984 to protect Canadians' environment and human health. Environmental Defence's mandate and objective is to challenge, and inspire change in government, business and people to ensure a greener, healthier and prosperous life for all. Its vision is to create a world Canadians are proud to pass on to their children.

B. Membership and Constituency

Environmental Defence is supported by many thousands of donors across the province and country. It sees its constituency as Canadians who are concerned about the environment and the legacy that we will pass on to our children.

C. Types of Programs and Activities that Environmental Defence Carries Out

Environmental Defence has been highly successful in its public interest advocacy on energy issues. Environmental Defence's environmental work, on issues ranging from toxic chemicals to clean beaches, has led to concrete improvements in the lives of Canadians. For example, the dangerous chemical Bisphenol A ("BPA") is now banned in baby bottles in Canada due to concerns first raised by Environmental Defence in 2007. For many years, Environmental Defence has participated in the federal government's Chemicals Management Plan.

Environmental Defence is also the coordinator of Blue Flag Canada, which certifies beaches so that Ontario families can enjoy this public resource. It also co-founded Blue Green Canada with the United Steelworkers, which promotes green energy initiatives that have positive employment and economic impacts.

Environmental Defence also publishes reports and guides in the area of energy conservation, efficiency, and policy. For example, it has created an interactive online tool to help energy consumers reduce their bills through energy efficiency initiatives. Some further publications include:
