Dear Ms Marconi:

Re: EB-2023-0003 - OEB Consultation – Engagement on Distributor Resilience, Response and Cost Efficiency

I am a consultant to the Consumers Council of Canada (“Council”). I have been instructed by my client to indicate our intent to participate the OEB’s Consultation – Engagement on Distributor Resilience, Responsiveness and Cost Efficiency. The Council is a public-interest entity which represents the interests of residential consumers in Ontario.

On March 25, 2022, the Council filed with the Board, pursuant to Rule 22.03 of the Ontario Energy Board’s Rules of Practice and Procedure, a document describing the Council, its mandate and objectives, membership, the constituency represented, and the types of activities the Council carries out. In addition, we provided a list of the individuals authorized to represent the Council in OEB proceedings.

The nature and scope of the Council’s intended participation in this consultation process will be the following:

1. To attend the scheduled Stakeholder meeting on March 20, 2023; and
2. To participate in any further steps in the process, if required.

The Council intends to ask for an order of costs in this proceeding. The Council has participated in many electricity proceedings and consultations over a long period of time. In all of those proceedings and consultation processes the Council has been recognized as being eligible for an award of costs. In the absence of an award of costs the Council would be unable to participate in this proceeding.

Copies of all correspondence related to this proceeding be sent to the following:
