Good Afternoon,

I am writing in regards to the regulatory proceedings that are currently occurring at OEB concerning energy issues relating to low income consumers. I am wondering if it is possible for Manitoba Hydro to be granted observer status in the Stakeholder conference which commences on September 22, 2008? We do not wish to become participants in the conference, however, it would be beneficial to both Manitoba Hydro and Manitoba Hydro's customers for us to learn from the information exchanged during this conference. I understand that some information is posted to the OEB website, however, it may be more beneficial to read the documents, in their entirety, as submitted by the conference participants.

Regards,
