AMPCO Request for Eligibility for an Award of Costs

Dear Ms. Marconi:

I am writing pursuant to the Ontario Energy Board's (OEB) letter dated January 23, 2023 regarding the above consultation to request eligibility for an award of costs.

AMPCO's Interest

AMPCO is a not-for-profit consumer interest advocacy organization. AMPCO's members represent Ontario's major industries: forestry, chemical, mining and minerals, steel, petroleum products, cement, automotive and manufacturing and business consumers in general. AMPCO members are major investors, major employers and a major part of communities in which we operate, across Ontario.

AMPCO and its member companies are well known to the OEB. AMPCO participates in many proceedings, working groups, consultations and initiatives of OEB in which matters relevant to Ontario's large electricity consumers are being addressed.

AMPCO's interest in the OEB's regulation of distribution and transmission companies relates generally to the interests of consumers with respect to price, adequacy, reliability, affordability and quality of electricity service, and, more particularly, to how costs are allocated to, and rates are designed to recover costs from, industrial customers.

The OEB has commissioned the preparation of a report which will review best practices regarding climate change resilience and has scheduled a Stakeholder meeting on March 20, 2023 to present and discuss the report. AMPCO plans to attend the meeting and participate in any further steps as required. AMPCO respectfully asks that the OEB please confirm AMPCO's eligibility for an award of costs in this matter.
