

Important information about Electricity Contracts

Before you sign up, understand:

1. The price
2. Your rights
3. Your responsibilities

The Ontario Energy Board

PROTECTING YOU

The Ontario Energy Board (OEB) is the independent regulator protecting Ontario's electricity and natural gas consumers.

This information was prepared by the OEB. Please read it carefully.

You do not have to enter into a contract.

- You have a choice: You may decide to enter into an energy contract with a licensed energy retailer or you can purchase electricity from your utility.
- You will have electricity whether or not you enter into an energy contract.
- With, or without, an energy contract, you will still be eligible for conservation and other programs from government or your utility.

Do your homework. Don't be pressured.

The energy retailer must give you the following documents. Take the time to read all the information.

1. The energy contract
2. A Price Comparison document

If these documents were not provided to you, call the OEB.

Energy retailers are not your utility, the government or the OEB.

Understand payment options.

If you are on an equal payment plan, make sure you ask your electricity utility if you can stay on their plan if you enter into an energy contract.

There will be other charges.

An energy contract only applies to part of your bill.

If you switch to an energy retailer, you still have to pay other charges to your utility company to have your electricity delivered to you.

The Global Adjustment (GA) accounts for the differences between the market price of electricity and the rates paid to regulated and contracted generators, and for conservation programs.

All electricity customers pay a portion of the GA. Under an electricity contract, you will start to see that the GA is itemized as a separate line on your bill.

Use the OEB's online bill calculator to compare prices.

Before you enter into an energy contract, get a current price comparison. Use your own utility bill, the contract price offer and the OEB's bill calculator. Go to OEB.ca/calculator

Remember, you are entering into a legal agreement.

The energy contract is a legal agreement between you and an energy retailer. Under the energy contract, you have rights and you also have responsibilities.

Savings are not guaranteed.

The OEB does not set prices included in an energy retailer's contract. Make sure you understand what you will pay under the energy contract.

You can change your mind.

You can cancel the energy contract with no penalty:

- Within **10 days** of entering into the contract.
- Within **30 days** after you receive your second bill under the contract. You will still have to pay your bill.

Confirming the energy contract

You will be contacted **10-45 days** after you've entered into the contract to verify that you wish to continue with it. If you do not want to continue with the contract, you can say so. You will not have to pay a cancellation fee.

You can cancel at any other time but may have to pay a cancellation fee. Read the contract and know the cancellation rules and cost.

Acknowledgment

I have read and understood the total of 3 pages in this Disclosure Statement. This Disclosure Statement is not part of the energy contract. Sign it and keep it for your records.
