Dear Nancy Marconi:

Re: Enbridge Gas Inc. (EGI)
OEB File No. EB-2022-0200 - EGI 2024 Rebasing Proceeding
TransCanada PipeLines Limited (TCPL) Technical Conference Areas of Focus and Time Estimates

In Procedural Order No. 1, the Ontario Energy Board (OEB) required parties to file by March 15, 2023, a description of the specific areas that they will be focusing on and an estimate of time required for each area of focus during the Technical Conference scheduled for March 22-28, 2023. On March 13, 2023, EGI filed a letter with the OEB in which it provided details about its proposed approach for Technical Conference witness panels and requested that parties indicate time estimates for questions for each witness panel.

TCPL anticipates that it may have a limited number of questions for EGI company witnesses, but no specific questions for the EGI experts associated with the witness panels. Table 1 below outlines TCPL's initial areas of focus and current time estimates for its questions. TCPL will provide an update at the Technical Conference if any of these time estimates change.

Table 1: TCPL Areas of Focus and Time Estimates

EGI Panel Number	Area of Focus	Exhibit #	TCPL Time Estimate (minutes)
5	PDO	4-7-1	5
7	Gas Supply Plan	4-2-1	5
10	Cost Allocation for 2024	7-1, 7-2	20
	Rate Design for 2024	8-1, 8-2
