DELIVERED BY EMAIL

Dear Ms. Marconi,

RE: EB-2022-0200 Enbridge Gas Inc. 2024-2028 Rate Application

Please see below Ontario Petroleum Institute's ("OPI") proposed area of focus (by panel) and time estimate for the Technical Conference. Please note that time may need to be adjusted from one panel to another as necessary, but OPI will attempt to remain in the total estimated time envelope.

Panel	Specific Areas of Focus	Time Estimate
7	Rate Design for Gas Supply Commodity and Gas Transportation Costs	30 minutes
10	Rate Design for 2024 Rates	30 minutes

OPI's questions will pertain to Exhibit 8, Tab 2, Schedule 5 and specifically Enbridge Gas' proposal to introduce two monthly fixed charges for Rate M13 producers to recognize differences in cost for stations that have a remote terminal unit. Questions will also be posed on Enbridge Gas' proposal to charge producers under a Gas Purchase Agreement one of the Rate M13 monthly fixed charges based on the nature of the station.

Please reach out if you have any questions or concerns.

Sincerely,

Scott Lewis – Chairman OPI
