**Re: Pollution Probe Letter related to Confidentiality Request**

---

Enbridge Gas Inc. ("Enbridge Gas" or "the Company") is in receipt of a Pollution Probe letter dated March 14, 2023, related to the above noted application. Within its letter, Pollution Probe recommends that content provided in confidence in response to Exhibit I.STAFF.10, not be afforded confidential treatment and that the OEB direct that unredacted versions of that response be filed on the public record. Pollution Probe's recommendation is based on its incorrect presumption that all affected properties are businesses.

In fact, Attachment 1 of Enbridge Gas' response to Exhibit I.STAFF.10 is comprised of both Directly and Indirectly affected landowners. Enbridge Gas confirms that while all of the Directly affected landowners are businesses, certain of the Indirectly affected landowners are individuals. The OEB is subject to the *Freedom of Information and Protection of Privacy Act* (FIPPA), and it is required to protect the privacy of an individual's information. Furthermore, the information that Pollution Probe is seeking is not relevant for the OEB to determine the issue in the proceeding. Enbridge Gas has only sought confidential treatment in relation to the personal information of Indirectly affected individual landowners from whom Metrolinx has expropriated lands.

As per Enbridge Gas' cover letter submitted on March 10, 2023, in accordance with the OEB's *Practice Direction on Confidential Filings*, Enbridge Gas reasserts its request for confidential treatment of the personal information identified in Exhibit I.STAFF.10, Attachment 1.

If you have any questions, please contact the undersigned.

Sincerely,
