**Re: Natural Gas Demand Side Management – Program Evaluation Update  
eTools Validation Report  
EB-2015-0245**

The Ontario Energy Board (OEB) has posted a new evaluation report related to Enbridge Gas Inc.'s natural gas conservation and energy efficiency programs. The evaluation report documents the recently completed study of the energy modelling software used by Enbridge Gas to estimate natural gas savings following the implementation of energy-efficiency boiler equipment upgrades.

Questions about the OEB's program evaluation of natural gas conservation and energy efficiency programs should be directed to Josh Wasylyk at [josh.wasylyk@oeb.ca](mailto:josh.wasylyk@oeb.ca) or 416-440-7723.
