**Response Update**

Enbridge Gas filed its 2024 Rates Application and the majority of its supporting evidence on October 31, 2022 and the balance of its evidence on November 30, 2022. In this Application, Enbridge Gas requests approval of rates for the sale, distribution, transmission, and storage of gas commencing January 1, 2024. Enbridge Gas also applies for approval of an incentive rate-making mechanism (IRM) for the years from 2025 to 2028.

Since filing its interrogatory responses on March 8, 2023, Enbridge Gas has discovered that certain materials were not included with its interrogatory responses. Enbridge Gas was also requested to provide certain data related to its depreciation study.

The missing interrogatory materials and the depreciation data are included with this letter. Also included with this letter are additional CVs and an acknowledgement of experts duty Form A. The CVs and the Form A were not included as part of Enbridge Gas's pre-filed evidence. Table 1 sets out the Exhibits impacted by the updates provided in this letter.
