LETTER OF COMMENT

Comments:

This idea of a new fee-cap and trade added to Ontarian's on their Gas consumption is unfair especially if other provinces don't go along with the program. I also feel that for Ontario we get a lot of pollution coming up from the US and this additional cap and trade fee is a big waste of money for tax payers and our already tight budgets. It will not work and I would like to see the Liberal government cancel this program. Our next election can't come soon enough for me.

Thank you for allowing me to voice my opinion.
