Dear Mr. Packer:

Re: EB-2022-0048 – London Hydro. - Application for 2023 Rates

The Ontario Energy Board (OEB) provided a draft Decision and Rate Order and a draft Tariff of Rates and Charges in relation to the above-noted proceeding on February 24, 2023. In its letter filed with OEB on February 28th, 2023, London Hydro noted the following comments:

1. Wholesale Market Service Rate (WMS) – not including CBR should be \$0.0041/kWh instead of \$0.0030/kWh
2. Rural or Remote Electricity Rate Protection Charge (RRRP) should be \$0.0007/kWh instead of \$0.0005/kWh
3. Specific charge for access to the power poles should be \$36.05/pole/year rather than \$34.76/pole/year

The OEB accepts the recommended changes listed above.

Please note that in addition to the above accepted required modifications, OEB also adjusted the loss factor to four decimal places for consistency with historical records.

All the changes reflected in the final decision and rate order are now summarized below:

Line Item of Rate Order	Originally Included in the Draft Decision	Updated in the Final Decision
Wholesale Market Service Rate (WMS) - not including CBR	0.0030-\$/kWh	0.0041-\$/kWh
Rural or Remote Electricity Rate Protection Charge (RRRP)	0.0005-\$/kWh	0.0007-\$/kWh
Specific charge for access to the power poles - per pole/year	\$34.76/pole/year	\$36.05/pole/year
Loss Factors		
Total Loss Factor - Secondary Metered Customer > 5,000 kW	1.011944237	1.0119
Total Loss Factor - Primary Metered Customer < 5,000 kW	1.018526961	1.0185
Total Loss Factor - Primary Metered Customer > 5,000 kW	1.001571459	1.0016

The OEB has now issued a final Decision and Rate Order, together with a final Tariff of Rates and Charges. Copies of these documents are enclosed with this letter.

Yours truly,

Nancy Marconi
Registrar
