## DECISION AND ORDER

Shell Canada Products filed a complete application on February 27, 2023, with the Ontario Energy Board (OEB) pursuant to section 60 of the *Ontario Energy Board Act, 1998* (OEB Act), for a renewal of its electricity wholesaler licence.

This Decision and Order is being issued by the Delegated Authority pursuant to Section 6 of the OEB Act. The Delegated Authority has considered the application without holding a hearing pursuant to section 6(4) of the OEB Act.

The applicant applied on September 29, 2022, to renew its electricity wholesaler licence, which was set to expire on October 11, 2022. An Interim Decision and Order extending the licence term to April 1, 2023, was issued on October 11, 2022.

After considering the technical and financial capability of the applicant, the OEB finds that it is in the public interest to grant the application and issue the electricity wholesaler licence to Shell Canada Products. The OEB notes the application was filed by the applicant 12 days prior to the expiration of the existing licence and takes this opportunity to remind the applicant and all existing licensees that they must ensure their renewal application is filed in time to permit the OEB to undertake its review and issue a licence prior to the expiry of an existing licence.

### IT IS ORDERED THAT:

1. The application is granted, on such conditions as are contained in the attached licence.
