#### VIA EMAIL and RESS

Nancy Marconi Registrar Ontario Energy Board 2300 Yonge Street, 27th Floor Toronto, ON M4P 1E4

Dear Nancy Marconi:

#### Re: Enbridge Gas Inc. (Enbridge Gas) Ontario Energy Board (OEB) File No.: EB-2022-0249 <u>Hidden Valley Community Expansion Project – Affidavit of Service</u>

On February 3, 2023, the OEB issued the Notice of Hearing and Letter of Direction for the above noted proceeding.

As directed by the OEB, enclosed please find the Affidavit of Service which has been filed through the OEB's Regulatory Electronic Submission System.

Please contact the undersigned if you have any questions.

Sincerely,

Stephanie Allman Regulatory Coordinator

#### ONTARIO ENERGY BOARD

**IN THE MATTER OF** the *Ontario Energy Board Act, 1998,* S.O. 1998, c. 15, Schedule B; and in particular sections 90(1) and 97 thereof;

**AND IN THE MATTER OF** an application by Enbridge Gas Inc. for an order granting leave to construct natural gas distribution pipelines and ancillary facilities that make up a Community Expansion Project to serve the Hidden Valley community in the Town of Huntsville and District of Muskoka.

#### **AFFIDAVIT OF SERVICE**

I, Stephanie Allman, of the Town of Keswick, make oath and say as follows:

- 1. I am in the employ of Enbridge Gas Inc. ("Enbridge") and as such have knowledge of the matters hereinafter deposed to.
- 2. On or about January, 2023 a search of title forthwith sufficient to determine the owners and encumbrances with land, or registered interests in land directly affected by the construction of the proposed pipeline and related facilities was conducted (attached as part of Exhibit D to this Affidavit).
- 3. Pursuant to the February 3, 2023 Letter of Direction from the Ontario Energy Board (OEB), I caused to be served by courier a copy of the Notice of Hearing (Exhibit "A"), Enbridge's Application (Exhibit "B"), along with the following pieces of evidence (Exhibit "C") upon all property owners and encumbrances with lands or interest in lands as shown in Exhibit G, Tab 1, Schedule 1, Attachment 3 of Enbridge Gas' pre-filed evidence.
  - Exhibit B-1-1 Project Need
  - Exhibit C-1-1 Project Alternatives
  - Exhibit D-1-1 Proposed Project, Engineering & Construction
  - Exhibit E-1-1 Project Cost & Economics
  - Exhibit F-1-1 Environmental Matters
  - Exhibit G-1-1 Land Matters & Agreements

- Exhibit H-1-1 Indigenous Consultation
- Exhibit I-1-1 Conditions of Approval
- 4. Attached hereto is proof in the form of UPS courier confirmation sheets (Exhibit "D"), that the relevant Notice of Hearing, and Enbridge's Application and evidence was served on those parties noted in the paragraph above as requested by the OEB in the Letter of Direction. Personal information has been redacted from the landowner and encumbrancer listing. The following courier package was considered "return to sender" and undelivered.

Tracking Number	<u>Type</u>	Landowner/Encumbrancer	Reason

SWORN before me in the City of Toronto, this 27th day of March, 2023.

Stephanie Allman

A

#### Enbridge Gas Inc. has applied for leave to construct natural gas pipelines in the Town of Huntsville and District of Muskoka.

#### Learn more. Have your say.

Enbridge Gas Inc. has applied to the Ontario Energy Board for an order granting leave to construct natural gas pipelines in the Town of Huntsville and District of Muskoka. The pipelines consist of approximately 4 kilometres of Nominal Pipe Size 2-inch polyethylene pipeline. Enbridge Gas Inc. is also proposing to construct ancillary facilities. The location of the proposed pipelines is shown in the map.

Enbridge Gas Inc. is also asking the Ontario Energy Board to approve the form of agreement that it has offered or will offer to landowners affected by the routing or location of the proposed pipelines.

Enbridge Gas Inc. states that the pipelines are needed to supply natural gas to approximately 110 new residential customers in the community of Hidden Valley, in the Town of Huntsville and District of Muskoka, who currently do not have access to natural gas service. Enbridge Gas Inc. states that it intends to charge the OEB-approved System Expansion Surcharge to all new customers that will be taking service from the project.

Enbridge Gas Inc. states that on June 9, 2021, the proposed project (also referred to as the Hidden Valley Community Expansion Project), was approved to receive funding assistance under Phase 2 of the Government of Ontario's Natural Gas **Expansion Program.** 

#### Please review the application for more information about the proposed project.

#### THE ONTARIO ENERGY BOARD WILL HOLD A PUBLIC HEARING

The Ontario Energy Board (OEB) will hold a public hearing to consider Enbridge Gas's application. During the hearing, which could be an oral, written or electronic hearing, we will question Enbridge Gas on the case. We will also hear questions and arguments from individual consumers, municipalities and others whose interests would be affected. At the end of this hearing, the OEB will decide whether to approve the application.

As part of its review of this application, the OEB will assess Enbridge Gas's compliance with the OEB's Environmental Guidelines for the Location, Construction and Operation of Hydrocarbon Pipelines and Facilities in Ontario.

#### The OEB will also assess whether the duty to consult with Indigenous Communities potentially affected by the proposed pipeline has been discharged with respect to the application.

More information on the types of issues that the OEB may consider are provided on the OEB's website in the form of a standard issues list: https://www.oeb.ca/sites/default/files/issues-list-LTC-natural-gas.pdf

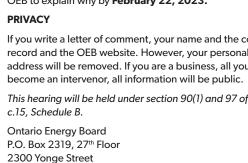

The OEB is an independent and impartial public agency. We make decisions that serve the public interest. Our goal is to promote a financially viable and efficient energy sector that provides you with reliable energy services at a reasonable cost.

#### **BE INFORMED AND HAVE YOUR SAY**

You have the right to information regarding this application and to be involved in the process.

- You can review the application filed by Enbridge Gas on the OEB's website now ٠
- You can find information on the OEB's website at www.oeb.ca/participate
- You can find information on the duty to consult with Indigenous peoples on the OEB's website at www.oeb.ca/industry/applications-oeb/consultation-indigenous-peoples
- You can file a letter with your comments, which will be considered during the hearing
- You can become an intervenor. As an intervenor you can ask questions about Enbridge Gas's application and make arguments on whether the OEB should approve Enbridge Gas's request. Apply by February 22, 2023 or the hearing will go ahead without you and you will not receive any further notice of the proceeding
- At the end of the process, you can review the OEB's decision and its reasons on our website

Toronto ON M4P 1E4 Attention: Registrar Filings: https://p-pes.ontarioenergyboard.ca/PivotalUX/. E-mail: registrar@oeb.ca

LEARN MORE

Our file number for this case is **EB-2022-0249.** To learn more about this hearing, find instructions on how to file a letter with your comments or become an intervenor, or to access any document related to this case, please select the file number EB-2022-0249 from the www.oeb.ca/noticeltc on the OEB website. You can also phone our Public Information Centre at 1-877-632-2727 with any questions.

#### FORMAT OF HEARING

There are three types of OEB hearings - oral, electronic and written. The OEB intends to proceed with a written hearing. If you have a preference with respect to the format of the hearing, you can write to the OEB to explain why by February 22, 2023.

If you write a letter of comment, your name and the content of your letter will be put on the public record and the OEB website. However, your personal telephone number, home address and email address will be removed. If you are a business, all your information will remain public. If you apply to

This hearing will be held under section 90(1) and 97 of the Ontario Energy Board Act, 1998, S.O. 1998,

Filed: 2022-12-20 EB-2022-0249 Exhibit A Tab 2 Schedule 1 Page 1 of 4 Plus Attachment

#### ONTARIO ENERGY BOARD

**IN THE MATTER OF** the *Ontario Energy Board Act, 1998,* S.O. 1998, c. 15, Schedule B; and in particular sections 90(1) and 97 thereof;

**AND IN THE MATTER OF** an application by Enbridge Gas Inc. for an order granting leave to construct natural gas distribution pipelines and ancillary facilities that make up a Community Expansion Project to serve the Hidden Valley community in the Town of Huntsville and District of Muskoka.

#### APPLICATION

- Enbridge Gas Inc. ("Enbridge Gas" or the "Company") hereby applies to the Ontario Energy Board ("OEB") pursuant to section 90(1) of the Ontario Energy Board Act, 1998, S.O. 1998, c. 15, Schedule B (the "Act"), for an order granting leave to construct natural gas pipelines and facilities, as described herein, in the Town of Huntsville & District of Muskoka, Ontario. The pipelines consist of:
  - (i) Approximately 4 km of Nominal Pipe Size ("NPS") 2-inch polyethylene ("PE") natural gas pipeline.
- For ease of reference and to assist the OEB with preparation of the notice of application for the Project, a map of the proposed facilities is included as Attachment 1 to this Exhibit.
- 3. On June 9, 2021, the proposed Hidden Valley Community Expansion Project ("Project") was approved to receive funding assistance as part of Phase 2 of the Government of Ontario's Natural Gas Expansion Program ("NGEP"), which provides financial support to help utilities expand natural gas distribution into communities that are not currently connected to the natural gas system. The Project will provide approximately 110 forecasted customers located in the

Filed: 2022-12-20 EB-2022-0249 Exhibit A Tab 2 Schedule 1 Page 2 of 4 Plus Attachment

Hidden Valley community in the Town of Huntsville and District of Muskoka with access to safe, reliable, and affordable natural gas distribution services.

- 4. Enbridge Gas has Franchise Agreements with the Town of Huntsville and District of Muskoka.<sup>1</sup> Enbridge Gas also holds a Certificate of Public Convenience and Necessity for any project work within the Town of Huntsville.<sup>2</sup> These agreements allow the Company to construct, operate and add to the natural gas distribution system within all parts of the municipality.
- 5. With leave to construct approval from the OEB, construction of the Project is planned to commence in August 2023 and be placed into service by October 2023. Please note, construction of the Project must be completed and crews must be demobilized prior to November 1, 2023 as a result of the municipalities' requirement that no heavy equipment work can take place between November 1 May 31 each year. The proposed construction schedule can be found at Exhibit D, Tab 2, Schedule 1.
- 6. Enbridge Gas intends to charge a System Expansion Surcharge ("SES") to all new customers taking gas distribution service from the Project. In accordance with the OEB's EB-2020-0094 Decision and Order, the SES will be a fixed volumetric rate of \$0.23 per cubic metre of gas to be charged in addition to Enbridge Gas's base distribution rates as approved by the OEB. The SES is proposed to be charged to all customers taking gas distribution service from the Project for a term of 40 years. Detailed information about the proposed SES and its applicability to the Project can be found in Exhibit E.

<sup>&</sup>lt;sup>1</sup> Town of Huntsville Franchise Agreement – EB-2022-0233

Filed: 2022-12-20 EB-2022-0249 Exhibit A Tab 2 Schedule 1 Page 3 of 4 Plus Attachment

- 7. If the OEB determines that it will conduct a hearing for this application, then Enbridge Gas requests that it proceed by way of written hearing in English.
- 8. Enbridge Gas requests that the OEB make the following orders:
  - (i) pursuant to section 90(1) of the Act, an Order granting leave to construct the Project; and
  - (ii) pursuant to section 97 of the Act, an Order approving the form of temporary land use agreements and easement agreements found at Exhibit G, Tab 1, Schedule 1, Attachments 1 and 2.
- 9. Enbridge Gas requests that copies of all documents filed with the OEB in connection with this proceeding be served on it and on its counsel, as follows:

Filed: 2022-12-20 EB-2022-0249 Exhibit B Tab 1 Schedule 1 Page 1 of 6 Plus Attachments

# PROJECT NEED

# Introduction

- The Hidden Valley Community Expansion Project (the "Project") will make natural gas available to approximately 110 customers in the Hidden Valley community within the Town of Huntsville and District of Muskoka. Expansion of Enbridge Gas's natural gas distribution system within the Town of Huntsville will further the Government of Ontario's efforts pursuant to its Natural Gas Expansion Program to have gas distribution service made available to communities in Ontario that are currently not served.
- 2. The Project is composed of approximately 4 km of NPS 2-inch Polyethylene ("PE") natural gas distribution pipeline and ancillary facilities including customer services.

# The Government of Ontario NGEP

 The Project was previously approved to receive funding assistance from Phase 2 of the Government of Ontario's Natural Gas Expansion Program ("NGEP"). The Government of Ontario describes the NGEP as follows:

The Natural Gas Expansion Program was created under the *Access to Natural Gas Act, 2018* to help expand access to natural gas to areas of Ontario that currently do not have access to the natural gas distribution system. This program encourages communities to partner with gas distributors on potential expansion projects that would not be built without additional financial support and submit information on these proposals to the Ontario Energy Board.<sup>1</sup>

4. As part of Phase 2 of the NGEP process, Enbridge Gas filed proposals for 207 potential community expansion and economic development projects. On June 9,

<sup>&</sup>lt;sup>1</sup> <u>https://www.ontario.ca/page/natural-gas-expansion-program</u>

Filed: 2022-12-20 EB-2022-0249 Exhibit B Tab 1 Schedule 1 Page 2 of 6 Plus Attachments

2021, the Government of Ontario announced that 28 projects across 43 communities were selected for funding under Phase 2 of the NGEP, including the Project. The press release is included as Attachment 1 to this Exhibit.

5. By proceeding with the Project, Enbridge Gas will expand access to safe, reliable, and affordable natural gas service to the Hidden Valley community within the Town of Huntsville and District of Muskoka in direct support of the NGEP.

# Delivering the Energy that Customers Want and Need

6. Enbridge Gas has conducted extensive consultation with the Town of Huntsville and District of Muskoka. Support for the Project has come from a variety of sources including the Town of Huntsville and the residents in the Project area. Attachment 2 to this Exhibit contains a letter dated July 31, 2020, from the Town of Huntsville indicating its support for the Project.<sup>2</sup>

# Market Research

- Enbridge Gas conducted surveys of potential residential customers to gauge interest in natural gas distribution service and conversion within the Project area. Enbridge Gas retained Forum Research, a third-party research supplier, to conduct surveys by telephone, online and in-person of potential residential customers in the Project area between August 23 and September 18, 2022.
- 8. The survey informed residential customers about the proposed Project and sought information pertaining to the characteristics of dwellings/buildings, including:
  - their nature

<sup>&</sup>lt;sup>2</sup> This letter was filed in the Potential Projects to Expand Access to Natural Gas Distribution Proceeding (EB-2019-0255) at Schedule 7J-5.

Filed: 2022-12-20 EB-2022-0249 Exhibit B Tab 1 Schedule 1 Page 3 of 6 Plus Attachments

- the current fuel type relied upon; and
- interest in converting to natural gas-fueled equipment and/or appliances.
- 9. A total of 61 surveys were completed. Results from the Forum Research survey indicated that the split between fuel sources for residents in the Town of Huntsville is currently 77% Propane, 18% Electricity,<sup>3</sup> 3% Oil, 2% Wood. 69% of respondents indicated that they would be likely (extremely likely, very likely or likely) to convert to natural gas if made available. Of those respondents likely to convert to natural gas, 66% indicated that they would convert within the first year of natural gas service becoming available, 29% indicated they would convert within 2 years of natural gas service becoming available, and 5% indicated they would convert within 2-3 years of natural gas service becoming available. The results of this survey are set out in Attachment 3 to this Exhibit.
- 10. Natural gas continues to maintain price competitiveness against other energy alternatives in Ontario. Figure 1 shows this price advantage and includes the proposed \$0.23/m<sup>3</sup> System Expansion Surcharge ("SES"). The data set out in Figure 1 is based on the proposed January 2023 QRAM rates<sup>4</sup> and are calculated assuming a typical Rate 01 residential customer in the Union Northeast rate zone consuming 2,200 m<sup>3</sup> of natural gas per year. Based on the most recent prices available, a typical residential Rate 01 Northeast customer saves 57% compared to

<sup>&</sup>lt;sup>3</sup> 18% includes 16% of respondents that indicated their primary energy source was Electricity (11% Electric Baseboard, 3% Electric Forced Air and 2% Electric Heat Pump) + 2% of respondents that indicated their primary energy source was Air Source Heat Pumps.

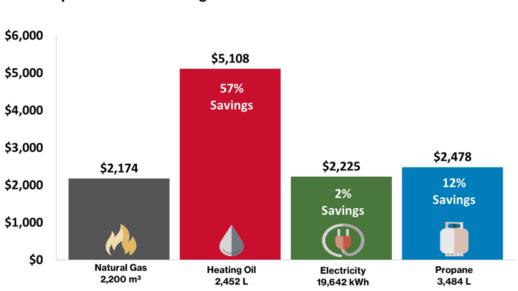

<sup>&</sup>lt;sup>4</sup> EB-2022-0286 January 1, 2023 Quarterly Rate Adjustment Mechanism (QRAM) application has been filed by Enbridge Gas and is currently before the OEB seeking approval for rates effective January 1, 2023. Depending on the final OEB decision, the possibility exists that these charts may vary if rates change from the proposed rates.

Filed: 2022-12-20 EB-2022-0249 Exhibit B Tab 1 Schedule 1 Page 4 of 6 Plus Attachments

ÉNBRIDGE

heating oil, 12% compared to propane and 2% compared to electricity.<sup>5</sup> Importantly, the electricity prices utilized in Figure 1 include the Ontario Electricity Rebate which effectively suppresses the cost of electricity.

# Figure 1: Annual Energy Costs & Savings Versus Natural Gas, Including SES

Rate 01 NE Annual Space & Water Heating Bills

11. Recent pricing data for natural gas and alternative fuels continue to show cost savings despite the \$0.23/m<sup>3</sup> SES. Table 1 below estimates the average customer

<sup>&</sup>lt;sup>5</sup> Oil price is based on the latest actual data available at the time of comparison. Propane price is based on the latest available retail prices at the time of comparison in the Rate M1 Union South area discounted by 10% as a conservative estimate. Electricity rates are based on Hydro One Distribution rates (Meddensity R1) as of January 1, 2023 and RPP customers that are on TOU pricing. Electricity rates include the new Ontario Electricity Rebate (OER) and exclude fixed charges. Costs have been calculated for the equivalent energy consumed and include all service, delivery and energy charges. The federal carbon charge is included for all energy types as reported. HST is not included.

Filed: 2022-12-20 EB-2022-0249 Exhibit B Tab 1 Schedule 1 Page 5 of 6 Plus Attachments

in the Project area can achieve annual energy cost savings of approximately \$331 through conversion to natural gas. Annual energy costs by fuel type are based on the calculations used to develop Figure 1.

# Table 1: Estimated Annual Fuel Costs & Fuel Cost Savings for a Typical Rate 01 Residential Customer

Natural Gas		\$ 2,174	NA
Electricity	18%	\$ 2,225	\$ 51
Heating Oil	3%	\$ 5,108	\$ 2,934
Propane	77%	\$ 2,478	\$ 304
Wood	2%	No data available	No data available
Weighted Average N			
fuel sources)			\$331

12. Enbridge Gas has promoted and will continue to promote the efficient use of natural gas, current offers, and incentives to all residents and businesses in the Project and surrounding areas. The Company will work cooperatively with local heating contractors to encourage early conversion to natural gas.

# Growth Forecast

13. Table 2 below provides the Company's expected ten-year growth forecast for customer additions in the Project area. The ten-year growth forecast has been informed by the ongoing price advantage of natural gas over other energy sources, current Municipal Property Assessment Corporation ("MPAC") data and survey results discussed above, indicating that a high level of conversions is likely.

Total	29	26	10	7	6	7	6	7	6	6	110

#### Table 2: Forecasted Customer Attachments for the Project

#### Related Enbridge Gas Projects

14. While the Project is one of many community expansion projects proposed by Enbridge Gas, the Project itself does not contain any planned future phases and is not dependent upon any previously filed leave to construct application by Enbridge Gas. This Project is designed exclusively to serve the project areas discussed above and throughout the balance of this Application.

## **Conclusion**

15. The Project is required to support the NGEP and is designed to expand access to safe, reliable, and affordable natural gas to areas of Ontario that do not currently have it. The need for the Project is directly supported by the Township of Huntsville through their request for natural gas for their constituents. In addition, the need for the Project is supported by the interest in natural gas service within the community as derived from the market research survey results.

Filed: 2022-12-20 EB-2022-0249 Exhibit C Tab 1 Schedule 1 Page 1 of 2

# **ALTERNATIVES**

## Integrated Resource Planning Alternatives

- The Decision and Order for Enbridge Gas's Integrated Resource Planning Framework Proposal (EB-2020-0091) was issued on July 22, 2021. This decision was accompanied by an Integrated Resource Planning Framework for Enbridge Gas ("IRP Framework")<sup>1</sup>. The IRP Framework provides guidance from the OEB about the nature, timing and content of IRP considerations for future identified system needs. The IRP Framework provides Binary Screening Criteria in order to focus IRP assessments on identified system needs where there is reasonable expectation that an IRP alternative could efficiently and economically meet a system need.
- 2. Accordingly, Enbridge Gas has applied the Binary Screening Criteria and determined this Project meets the definition of a community expansion project, as defined in the IRP Framework, as the Project has been approved by the Government of Ontario as part of the Phase 2 NGEP, to provide access to natural gas services in the Town of Huntsville and District of Muskoka. The IRP Framework Decision explains that "Given the goal of the Ontario Government's Access to Natural Gas legislation to extend gas service to designated communities, the OEB will not require Enbridge Gas to develop an IRP Plan or consider alternatives to the infrastructure facilities to meet this need."<sup>2</sup>
- 3. Consequently, per the IRP Binary Screening Criteria (iv) the need underpinning the Project does not warrant further IRP consideration or assessment:

**iv. Community Expansion & Economic Development** – If a facility project has been driven by government legislation or policy with related funding explicitly aimed at delivering natural gas into communities, then an IRP evaluation is not required.<sup>3</sup>

<sup>&</sup>lt;sup>1</sup> EB-2020-0091, Decision and Order, July 22, 2021, Appendix A.

<sup>&</sup>lt;sup>2</sup> Ibid., p. 10

<sup>&</sup>lt;sup>3</sup> Ibid., p.11.

Filed: 2022-12-20 EB-2022-0249 Exhibit C Tab 1 Schedule 1 Page 2 of 2

# Facility Alternatives

- 4. As discussed in Exhibit B, the Project was designed in response to the Government of Ontario's Access to Natural Gas Act, 2018 and NGEP (Phase 2) which called for communities and natural gas distributors to work together to expand access to natural gas in unserved areas of Ontario. Accordingly, a description of the proposed Project (including preliminary facility design and estimated Project costs) was submitted to the OEB and the Government of Ontario. On the basis of this proposal on June 9, 2021, the Government of Ontario announced that the Project (along with 27 others) was selected for funding under Phase 2 of the NGEP.
- Considering that the proposed Project was previously reviewed and approved by the Government of Ontario and the OEB for the purposes of granting funding under Phase 2 of the NGEP, Enbridge Gas did not assess other facility alternatives.

Filed: 2022-12-20 EB-2022-0249 Exhibit D Tab 1 Schedule 1 Page 1 of 7

# PROPOSED PROJECT, ENGINEERING AND CONSTRUCTION

#### Proposed Project

- As described in Exhibit B, the Project will tie into the existing NPS 2 PE Enbridge Gas system near the intersection of Hidden Valley Road and Mount Pleasant Court in Huntsville, Ontario to feed the community of Hidden Valley.
- 2. The Project consists of approximately 4 km of NPS 2-inch PE natural gas pipeline and ancillary facilities including customer services.
- 3. The route and location for the proposed facilities associated with the Project were reviewed by an independent environmental consultant through the process outlined in the Ontario Energy Board's "Environmental Guidelines for the Location, Construction, and Operation of Hydrocarbon Pipelines and Facilities in Ontario" (7<sup>th</sup> Edition, 2016) (the "Guidelines"). Input from the public was sought during the route selection process and was incorporated into the final route design. Details on the route selection and the Environmental and Socio-Economic Impact Assessment of the proposed facilities can be found in the Environmental Report found at Attachment 1 to Exhibit F. A map of the proposed Project can be found at Attachment 1 to Exhibit A, Tab 2, Schedule 1.

## Project Construction

4. Enbridge Gas will ensure that all piping components for the Project will be designed, installed, and tested in accordance with specifications outlined in Enbridge Gas's Construction and Maintenance Manual ("Specifications"). This manual meets or exceeds the requirements of CSA Z662 – Oil and Gas Pipeline

Filed: 2022-12-20 EB-2022-0249 Exhibit D Tab 1 Schedule 1 Page 2 of 7

System standard and Ontario Regulation 210/01, Oil and Gas Pipeline Systems.

- 5. Enbridge Gas will construct the Project using qualified construction contractors and Enbridge Gas employees. Each of these groups will follow approved construction specifications that reflect the site specific conditions of the Project as per the findings in the Environmental Report and the Environmental Protection Plan discussed in Exhibit F. All construction, installation and testing of the Project will be witnessed and certified by a valid Gas Pipeline Inspection Certificate Holder.
- Pipe may be installed using either the trench method or the trenchless method, or a combination of both. Restoration and monitoring will be conducted to ensure successful environmental mitigation for the Project.
- 7. Pipeline construction is divided into several crews that create a mobile assembly line. Each crew performs a different function, with a finished product left behind when the last crew has completed its work.
- 8. Contractors are required to erect safety barricades, fences, signs or flashers, or to use flag persons as may be appropriate, around any excavation across or along a road.
- 9. Construction of the pipeline includes the following activities:

## (a) Locating Running Line

The location where the pipeline is to be installed (the running line) is established initially. For pipelines within road allowances, the adjacent property lines are identified, and the running line is set at a specified distance from the property line. For pipelines located on private easement, the easement is surveyed, and the

Filed: 2022-12-20 EB-2022-0249 Exhibit D Tab 1 Schedule 1 Page 3 of 7

running line is set at the specified distance from the edge of the easement. The distance from the start of the pipeline (or other suitable point) is marked on the pipeline stakes and the drawings.

# (b) Clearing and Grading

The right-of-way is prepared for the construction of the pipeline. When required, bushes, trees and crops are removed, and the ground is leveled. When required, the topsoil is stripped and stored, and/or sod is lifted.

## (c) Stringing

The joints of pipe are laid end-to-end on supports that keep the pipe off the ground to prevent damage to the pipe coating.

#### (d) Installation

Pipe may be installed using either the trench method or the trenchless method. All utilities that will be crossed or paralleled by the pipeline within the identified construction area will be located by the appropriate utility owner prior to installing the pipeline. Prior to construction, all such utilities will be hand-located or hydro vacuumed to identify their location.

*Trench Method*: Trenching is done by using a trenching machine, backhoe or excavator depending upon the ground conditions. Provisions are made to allow residents access to their property, as required. All drainage tiles that are cut during the trench excavation are flagged to signify that a repair will be required. All tiles are measured and recorded as to size, depth, type and quality, and this information is kept on file.

Filed: 2022-12-20 EB-2022-0249 Exhibit D Tab 1 Schedule 1 Page 4 of 7

*Rock Excavation*: Rock in solid beds or masses will be fractured and removed using either a Hoe Ram and/or an approved blasting method. The blasting will be permitted in accordance with Enbridge Gas's construction procedures and the federal Explosives Act. The contractor shall obtain all necessary permits and shall comply with all legal requirements in connection with the use, storage and transportation of explosives as well as abiding by Enbridge Gas Specifications for rock excavation.

*Trenchless Method*: Trenchless methods are alternate methods used to install pipelines under railways, roads, sidewalks, trees and environmentally sensitive areas and watercourses. One of the trenchless methods proposed for this Project is directional drilling. This method involves setting up a receiving hole and an exit hole, drilling a pilot hole on the design path, reaming the pilot hole larger by passing a cutting tool and pulling the pipe back through the bored hole. Other common methods are boring and ploughing which may also be utilized in the installation of the infrastructure for the Project.

#### (e) Tie-Ins

The sections of pipelines that have been buried using either the trench or trenchless method are joined together (tied-in).

Filed: 2022-12-20 EB-2022-0249 Exhibit D Tab 1 Schedule 1 Page 5 of 7

# **Cleaning and Testing**

To complete the construction, the pipeline is cleaned and tested in accordance with Enbridge Gas Specifications and placed into service.

# (f) Backfilling and Restoration

The final construction activity is restoration of lands. The work area is backfilled and leveled, sod is replaced in lawn areas and other grassed areas are re-seeded. After the trench is backfilled, drainage tile is repaired as applicable. Where required, concrete, asphalt and gravel are replaced, and all areas affected by the construction of the pipeline are returned to as close to original condition as possible. As a guide to show the original condition of the area, photos and/or a video will be taken before any work commences. When the clean-up is completed, the approval of landowners or appropriate government authority is obtained.

## **Design Specifications & Testing Procedures**

10. The design specifications for the Project are provided in Table 1 below. The specifications are representative of the entire Project. Higher wall thickness, higher grade, or higher category piping may also be used in railway and water crossings pending final engineering assessment and calculations. Testing procedures for the Project are discussed below.

Min Test Duration	4	Hr

#### Table 1: NPS 2-inch PE Pipeline Design Specifications

11. The NPS 2-inch PE pipeline will be concurrently strength and leak tested after the installation of the pipe, for a minimum duration of four hours. The concurrent test will use air or nitrogen as the test medium at a pressure between 700 and 770 kPa. This is higher than 1.4 times the MOP of the pipeline.

## TSSA Correspondence

12. Enbridge Gas has filed an application with the Technical Standards & Safety Authority ("TSSA"). To date, Enbridge Gas has not received any concerns from the TSSA regarding their review and expects to receive a letter indicating that they have completed their review of the design for the proposed facilities in the coming months.

Filed: 2022-12-20 EB-2022-0249 Exhibit D Tab 1 Schedule 1 Page 7 of 7

# <u>Timing</u>

13. The construction schedule is shown at Exhibit D, Tab 2, Schedule 1. As proposed, the construction schedule will enable residents to use natural gas for the 2023/2024 heating season. Enbridge Gas will commence construction in August 2023 and will place the Project into service in October 2023.

Filed: 2022-12-20 EB-2022-0249 Exhibit E Tab 1 Schedule 1 Page 1 of 5 Plus Attachments

# PROJECT COST AND ECONOMICS

# Project Cost

 The total cost for the proposed Hidden Valley Community Expansion project is estimated to be \$3.5 million (as set out in Table 1 below), of which \$2.2 million is attributed to the Project (pipeline facilities for which the Company is seeking leave to construct via the current Application), and \$1.3 million is attributed to Ancillary Facilities for which the Company is not seeking leave to construct.

ltem No.	Description	Pipeline Costs	Ancillary Costs
1.0	Material	17,995	99,330
2.0	Labour and Construction	1,359,704	982,239
3.0	Outside Services	519,452	23,531
4.0	Land, Permits, Approvals and Consultations	8,861	0
5.0	Contingency	186,637	113,549
6.0	Sub-Total	2,092,649	1,218,649
7.0	Interest During Construction	18,157	3,362
8.0	Direct Overheads	37,984	92,860
9.0	Total Project Costs	2,148,790	1,314,871

- 2. The Project cost estimate set out in Table 1 above includes a 10% contingency applied to all direct capital costs commensurate with the current design stage of the Project and related risks/uncertainties. This contingency amount has been calculated based on the risk profile of the Project and is consistent with contingency amounts calculated for other Enbridge Gas Phase 2 NGEP projects.
- The cost estimate set out above differs from the amount estimated in the Company's original project proposal to the Government of Ontario (2019/2020) for funding under Phase 2 of the NGEP by approximately \$1.4 million (EB-2019-0255). This cost

Filed: 2022-12-20 EB-2022-0249 Exhibit E Tab 1 Schedule 1 Page 2 of 5 Plus Attachments

variance is attributed primarily to the completion of Project design and schedule.

# Project Economics

- 4. As set out in Table 1 above, the total estimated cost of the proposed Hidden Valley Community Expansion Project is \$3.5 million (including both pipeline and ancillary facilities). These costs include materials, construction and labour, external costs, contingencies and interest during construction ("IDC").
- An economic analysis has been completed in accordance with the OEB's recommendations in its E.B.O 188 Report of the Board on Natural Gas System Expansion ("E.B.O. 188"). A Discounted Cash Flow ("DCF") analysis for the Project is included at Attachment 2 to this Exhibit.
- 6. The DCF analysis for the Project has been prepared based on the Company's latest feasibility parameters (i.e., long-term debt rates, discount rates, tax rates, etc.), and includes a SES and funding to be obtained from Phase 2 of the Ontario Government's NGEP. Attachment 1 to this Exhibit shows the key inputs, parameters and assumptions used in completing the DCF analysis.
- 7. The Project time horizon is 40 years in accordance with E.B.O. 188 guidelines. The term of the SES is a fixed 40-year term as approved in EB-2019-0095.

## NGEP Funding

8. On July 1, 2019, section 36.2 of the Act came into effect pursuant to the Access to Natural Gas Act, 2018, which establishes a framework for the funding of natural gas expansion projects by natural gas ratepayers. Ontario Regulation 24/19, Expansion of Natural Gas Distribution Systems ("Regulation") sets out projects that are eligible for financial support subject to receiving any necessary OEB approvals, the mechanism

Filed: 2022-12-20 EB-2022-0249 Exhibit E Tab 1 Schedule 1 Page 3 of 5 Plus Attachments

by which funding is collected from ratepayers and distributed to the project proponents. The Regulation also requires that rate-regulated natural gas distributors charge each of their customers \$1 per month (for each account that the customer has with the natural gas distributor) to provide funding for the eligible expansion projects. Schedule 2 of the Regulation establishes the Project as one to receive funding up to \$1,899,859.

9. The DCF analysis includes this \$1.9 million of funding, which is treated similarly to a contribution in aid of construction ("CIAC"). The total capital cost net of funding over the 10-year attachment horizon is \$1.6 million.

# System Expansion Surcharge

- 10. To assist with the economic feasibility of the Project, Enbridge Gas intends to charge a SES of \$0.23 per m<sup>3</sup> to customers attaching to the Project for a term of 40 years. The proposed SES is consistent with the criteria and mechanism contemplated in Enbridge Gas's EB-2020-0094 application for a harmonized SES:
  - The SES is proposed for a community expansion project with a Profitability Index ("PI") of less than 1.0; and
  - The SES is proposed for a project providing first-time natural gas access to more than 50 potential customers.
- 11. As described below, the Project PI prior to inclusion of the proposed SES and NGEP funding is 0.29. The Project is expected to connect approximately 110 new customers to Enbridge Gas's system.

Filed: 2022-12-20 EB-2022-0249 Exhibit E Tab 1 Schedule 1 Page 4 of 5 Plus Attachments

# Rate Stability Period

12. Also consistent with the direction in the OEB's EB-2020-0094 Decision,<sup>1</sup> upon placing the Project into service, Enbridge Gas will apply a 10-year Rate Stability Period ("RSP") during which the Company will bear the risk of the Project customer attachment and capital expenditure forecast. In its upcoming rebasing application, Enbridge Gas will include the forecasted customer additions and capital cost of the Project as outlined in the Company's EB-2019-0255 submission for NGEP funding. At the next rebasing application after the ten-year RSP expires, Enbridge Gas will use actual revenues and actual capital costs of the Project to determine any revenue sufficiency or deficiency for rate-setting purposes. If the expiry of the ten-year RSP occurs during an incentive rate mechanism ("IRM") and not a rebasing year, any excess revenue or shortfall in rates would form part of the utility revenue that is subject to earnings sharing until the next rebasing, depending on the approved IRM framework at the time.

# Economic Feasibility

- 13. Detailed calculations of Project feasibility including the SES and NGEP funding are included at Attachment 1 to this Exhibit. Based on the forecast of costs and revenues before SES and NGEP funding, the Project has a PI of 0.29, which improves to 0.49 with the inclusion of the SES. The Company will require the NGEP funding to support the economic feasibility of the Project. After SES and NGEP funding, the Project currently has a net present value ("NPV") of -\$71,000 and a PI of 0.95. However, the Company expects that it will be able to manage this variance through project execution and the contingency amount budgeted for the Project.
- 14. The primary driver of the lower estimated PI relative to the PI of 1.0 in the Company's

<sup>&</sup>lt;sup>1</sup> EB-2020-0094 Decision and Order, November 5, 2020, pp. 8-9

Filed: 2022-12-20 EB-2022-0249 Exhibit E Tab 1 Schedule 1 Page 5 of 5 Plus Attachments

original EB-2019-0255 submission is higher forecasted capital costs partially offset by higher distribution rates and lower forecasted property taxes. The estimates of NPV and PI are subject to change as the Project progresses through the design and construction phase. Any variances from forecasted capital cost or revenues, including variances in the customer attachment forecast for the Project, will be managed by Enbridge Gas during the RSP. The final actual PI will be determined using actual information and will be communicated at the next rebasing application after the expiry of the RSP.

Filed: 2022-12-20 EB-2022-0249 Exhibit F Tab 1 Schedule 1 Page 1 of 5 Plus Attachments

#### ENVIRONMENTAL MATTERS

#### Environmental Report

- 1. Enbridge Gas retained Stantec Consulting Ltd. ("Stantec") to undertake a route evaluation and environmental and socio-economic impact study, which included a cumulative effects assessment and Stage 1 Archaeological Assessment ("AA"), to select the Preferred Route ("PR") for the Project. As part of the development of the study, Enbridge Gas and Stantec implemented a consultation program to receive input from interested and potentially affected parties including Indigenous communities. The consultation program input was evaluated and integrated into the study. Mitigation measures designed to minimize environmental and community impacts resulting from construction and operation of the Project were also developed as part of the study.
- The results of the study are documented in the Environmental Report ("ER") entitled *Hidden Valley Community Expansion Project: Environmental Report* included at Attachment 1 to this Exhibit. The ER conforms to the OEB's Guidelines.
- 3. Enbridge Gas supports Stantec's findings.
- 4. The objective of the ER is to outline various environmental mitigation and protection measures for the construction and operation of the Project while meeting the intent of the OEB Guidelines. To meet this objective, the ER was prepared to:
  - Undertake a route evaluation process.
  - Identify a PR, that reduces potential environmental impacts.

Filed: 2022-12-20 EB-2022-0249 Exhibit F Tab 1 Schedule 1 Page 2 of 5 Plus Attachments

- Complete a detailed review of environmental features along the PR and assess the potential environmental impacts of the project on these features.
- Establish mitigation and protective measures that may be used to minimize or eliminate potential environmental impacts of the project.
- Develop and implement a consultation and engagement program to receive input from interested and potentially affected parties.
- Identify any necessary supplemental studies, monitoring and contingency plans.
- 5. A Notice of Study Commencement and Virtual Open House (the "Notice") for the Project was published in 3 local newspapers on June 9, 2022.<sup>1</sup> The Notice introduced and described the Project, provided a map of the PR, noted the format and dates of the Virtual Information Session, and listed Project contact information. The Notice was emailed to Indigenous communities as well as the Ontario Pipeline Coordinating Committee ("OPCC"), various federal, provincial and municipal government agencies on June 3, 2022. The Notice was mailed to landowners located within a minimum of 1 km of the preferred route on June 8, 2022.
- 6. During the consultation process for development of the ER, Enbridge Gas and Stantec received comments from the public, agencies, interest groups, municipal and elected officials and Indigenous communities. Information pertaining to the input received can be found in Section 3.5 of the ER.
- 7. All environmental permits required for the Project will be acquired prior to the start of the relevant activities.

<sup>&</sup>lt;sup>1</sup> Bracebridge Examiner, Gravenhurst Banner and Huntsville Forester.

Filed: 2022-12-20 EB-2022-0249 Exhibit F Tab 1 Schedule 1 Page 3 of 5 Plus Attachments

8. The ER was sent via email to OPCC members, municipalities, conservation authorities, and Indigenous communities on September 16, 2022. The ER was sent by letter to landowners on September 16, 2022. The comments received were acknowledged, and where required, responses were provided. All correspondence is set out in the consultation log set out at Attachment 2 to this exhibit.

#### **Routing**

 Enbridge Gas retained Stantec to review the potential route for the Project using existing municipal right-of-ways (where possible) and with consideration for environmental and socio-economic constraints. Details on the route evaluation and selection process can be found in Section 2.0 of the ER.

## Environmental Protection Plan

10. Construction of the Project will be conducted in accordance with Enbridge Gas's Construction and Maintenance Manual, the recommendations in the ER, and recommendations from permitting agencies. An Environmental Protection Plan ("EPP") will be developed for the Project prior to construction. The EPP will incorporate recommended mitigation measures contained in the ER and those mitigation measures obtained from agency consultation for the environmental issues associated with the proposed works. These mitigation measures will be communicated to the construction contractor prior to the commencement of construction of the Project. A qualified Environmental Inspector or suitable representative will be available to assist the Construction Supervisor in seeing that mitigation measures identified in the EPP as well as requirements established by permitting agencies and any OEB conditions of approval are adhered to and that commitments made to the public, landowners and agencies are honored. The

Filed: 2022-12-20 EB-2022-0249 Exhibit F Tab 1 Schedule 1 Page 4 of 5 Plus Attachments

Environmental Inspector and Project Manager will also mitigate any unforeseen environmental circumstances that arise before, during, and after construction.

- Recommended mitigation measures for potential effects have been developed in the ER to address environmental and socio-economic features found along the PR. A summary of potential effects and recommended mitigation measures and protective measures can be found in Section 5.2, Table 5.1 of the ER.
- 12. Using the mitigation measures and monitoring and contingency plans found within the ER, EPP and additional mitigation measures provided by regulatory agencies through the permitting and approval process, construction of this Project will have negligible impacts on the environment. No significant environmental or cumulative effects are anticipated from development of the proposed pipeline Project. Enbridge Gas will complete the EPP prior to mobilization and construction of the Project.

# Watercourses and Wetlands

13. There are no watercourses or wetland crossings associated with this project.

## Cultural Heritage Assessment

14. A Cultural Heritage Checklist was completed by Stantec for the Project prior to submission of this Application and it was recommended based on the checklist that a "Cultural Heritage Report: Existing Conditions and Preliminary Impact Assessment" be completed for the Project. The report is anticipated to be submitted to the Ministry of Tourism, Culture and Sport ("MTCS") for approval

Filed: 2022-12-20 EB-2022-0249 Exhibit F Tab 1 Schedule 1 Page 5 of 5 Plus Attachments

before December 31, 2022.

# Archaeological Assessment

15. A Stage 1 AA was completed by Stantec on July 28, 2022, submitted to the MTCS for review on November 9, 2022 and remains with MTCS for review and potential acceptance. The Stage 1 AA can be found in Appendix E of the ER. A Stage 2 AA will be completed and submitted to MTCS for review and acceptance in 2023 prior to the start of construction.

Filed: 2022-12-20 EB-2022-0249 Exhibit G Tab 1 Schedule 1 Page 1 of 3 Plus Attachments

# LAND MATTERS & AGREEMENTS

## Land Requirements

- 1. The PR for the Project is summarized in Exhibit D and described in more detail in Section 2.0 of the ER, found at Attachment 1 to Exhibit F.
- The PR for the Project follows the public road allowance for the majority of the PR. Enbridge Gas will obtain municipal consent to construct in road allowance from the Town of Huntsville and the District of Muskoka.
- 3. Temporary working areas may be required along the PR where the road allowance is too narrow or confined to facilitate construction. These areas will be identified with the assistance of the contractor that will perform the construction. Agreements for temporary working rights will be negotiated where required. No permanent easement is required for the Project.

# Authorizations and Permits Required

4. Enbridge Gas's preliminary work on the Project has identified the following potential required authorizations:

## Provincial:

- Ontario Energy Board
- Ministry of Energy

## <u>Municipal:</u>

• Town of Huntsville

Filed: 2022-12-20 EB-2022-0249 Exhibit G Tab 1 Schedule 1 Page 2 of 3 Plus Attachments

District of Muskoka

## Other:

- Indigenous engagement
- Landowner agreements
- 5. Other authorizations, notifications, permits and/or approvals may be required in addition to those identified above.
- 6. Enbridge Gas will obtain all required permits, easements and temporary land use agreements if and as required for the route and location of the proposed facilities prior to the commencement of construction.
- 7. Attachment 1 to this Exhibit contains the standard form Temporary Land Use Agreement that will be provided to landowners for temporary working space requirements, if required. This standard form Temporary Land Use Agreement is the same agreement approved for use in Enbridge Gas's Haldimand Shores Community Expansion Project.<sup>1</sup>
- 8. No permanent easement is expected to be required for the Project. Attachment 2 to this Exhibit contains the standard form Easement Agreement that will be provided to landowners, if required. The standard form Easement Agreement is the same agreement approved for use in Enbridge Gas's Haldimand Shores Community Expansion Project.<sup>2</sup>

<sup>&</sup>lt;sup>1</sup> EB-2022-0088, Exhibit F-1-1, Attachment 1

<sup>&</sup>lt;sup>2</sup> *Ibid*, Attachment 2

Filed: 2022-12-20 EB-2022-0249 Exhibit G Tab 1 Schedule 1 Page 3 of 3 Plus Attachments

9. Enbridge Gas has an executed Maintenance Easement Agreement with the Condominium property at the location where the Project will tie-in to the existing Enbridge Gas distribution system. The Condominium Maintenance Easement Agreement allows the Company to connect the Project to the existing distribution system without any permanent easement requirement. Enbridge Gas is not seeking approval of this form of agreement in this application, as the agreement is required for the existing pipeline at the tie-in location and not a requirement for the Project.

## Landowner List

10. Attachment 3 to this Exhibit identifies the directly and indirectly impacted landowners. Indirectly impacted landowners are those landowners with property adjacent to the PR (for example, those bordering the municipal road allowance), where no land rights are required as part of the proposed Project. Directly impacted landowners are those landowners whose lands are directly impacted by the Project work and therefore are those from which the Company requires land rights for the proposed Project. Enbridge Gas will provide notice of this application to all landowners listed in Attachment 3.

Filed: 2022-12-20 EB-2022-0249 Exhibit H Tab 1 Schedule 1 Page 1 of 4 Plus Attachments

# INDIGENOUS<sup>1</sup> CONSULTATION

- Enbridge Gas is committed to creating processes that support meaningful engagement with potentially affected Indigenous groups (First Nations and Métis). Enbridge Gas works to build an understanding of project related interests, ensure regulatory requirements are met, mitigate or avoid project-related impacts on Indigenous interests including rights, and provide mutually beneficial opportunities where possible.
- 2. Pursuant to the OEB's Guidelines, Enbridge Gas provided the Ontario Ministry of Energy ("MOE") with a description of the Project to determine if there are any duty to consult requirements and, if so, if the MOE would delegate the procedural aspects of the duty to consult to Enbridge Gas. This correspondence, dated February 16, 2022, is set out in Attachment 1 to this Exhibit.
- 3. Enbridge Gas received a letter ("Delegation Letter") from the MOE dated April 7, 2022, indicating that the MOE had delegated the procedural aspects of consultation to Enbridge Gas for the Project. The Delegation Letter identified ten Indigenous communities to be consulted. A copy of the Delegation Letter is provided in Attachment 2 to this Exhibit.
- 4. This Indigenous Consultation Report ("ICR") was provided to the MOE on the date of this filing. The MOE will review Enbridge Gas's consultation with Indigenous groups potentially affected by the Project and provide its decision as to whether Enbridge Gas' consultation has been sufficient. Upon receipt of the MOE's

<sup>&</sup>lt;sup>1</sup> Enbridge Gas has used the terms "Aboriginal" and "Indigenous" interchangeably in its application. "Indigenous" has the meaning assigned by the definition "aboriginal peoples of Canada" in subsection 35(2) of the *Constitution Act, 1982*.

Filed: 2022-12-20 EB-2022-0249 Exhibit H Tab 1 Schedule 1 Page 2 of 4 Plus Attachments

decision regarding the sufficiency of Indigenous consultation on the Project, Enbridge Gas will file it with the OEB. The sufficiency letter provided by the MOE will be included as Attachment 3 to this Exhibit.

# Indigenous Engagement Program Objectives

- 5. The design of the Indigenous engagement program was based on adherence to the OEB's Guidelines and Enbridge Inc.'s company-wide *Indigenous Peoples Policy* ("Policy") (set out in Attachment 4 to this Exhibit). The Policy lays out key principles for establishing relationships with Indigenous groups, which includes:
  - Recognizing the importance of the United Nations Declaration on the Rights of Indigenous Peoples ("UNDRIP") in the context of existing Canadian law.
  - Recognizing the legal and constitutional rights possessed by Indigenous Peoples in Canada and the importance of the relationship between Indigenous Peoples and their traditional lands and resources.
  - Engaging early to achieve meaningful relationships with Indigenous groups by providing timely exchanges of information, understanding and addressing Indigenous project-specific concerns, and ensuring ongoing dialogue regarding Enbridge's' projects, their potential impacts and benefits.
  - Aligning Enbridge's interests with those of Indigenous communities through meaningful, direct Indigenous economic activity in projects corresponding to community capacity and project needs, where possible.
- 6. The Indigenous engagement program for the Project recognizes the rights of Indigenous groups and assists Enbridge Gas in engaging in meaningful dialogue

Filed: 2022-12-20 EB-2022-0249 Exhibit H Tab 1 Schedule 1 Page 3 of 4 Plus Attachments

with potentially affected Indigenous groups about the Project. It also assists Enbridge Gas in meeting the procedural aspects of consultation that may be required by the Crown and the OEB's Guidelines.

## Overview of Indigenous Engagement Program Activities

7. Enbridge Gas conducts its Indigenous engagement generally through phone calls, in-person meetings, Project mail-outs, open houses and email communications. During these engagement activities, Enbridge Gas representatives will provide an overview of the Project, respond to questions and concerns, and address any interests or concerns expressed by Indigenous communities to appropriately mitigate any Project-related impacts. To accurately document Indigenous engagement activities and ensure follow-up, applicable supporting documents are tracked using a database. In addition, capacity funding is offered to assist Indigenous communities in meaningfully participating in engagement activities.

## Ongoing Indigenous Engagement Activities

8. Enbridge Gas will continue to actively engage all identified Indigenous groups in meaningful ongoing dialogue concerning the Project and will endeavor to meet with each Indigenous group, provided they are willing, for the purpose of exchanging information regarding the Project and to respond to inquiries in a timely manner. Enbridge Gas will hear and address concerns as is feasible and seek information on the exercise of, and potential impacts to, Aboriginal and Treaty rights, traditional use in the Project area and how any potential Project-related impacts can be mitigated. Enbridge Gas also engages as appropriate with the MOE to ensure they are kept apprised of rights assertions by communities.

Filed: 2022-12-20 EB-2022-0249 Exhibit H Tab 1 Schedule 1 Page 4 of 4 Plus Attachments

- Attachment 5 to this Exhibit contains a summary of Enbridge Gas's Indigenous engagement activities for the Project. Attachment 6 to this Exhibit contains the ICR and substantive attachments for the Project.
- 10. The information presented in Attachment 5 and Attachment 6 reflects Enbridge Gas's Indigenous engagement activities for the Project up to and including December 13, 2022; however, Enbridge Gas will continue to engage throughout the life of the Project to ensure any potential impacts on Indigenous rights and interests are addressed as appropriate.

Filed: 2022-12-20 EB-2022-0249 Exhibit I Tab 1 Schedule 1 Page 1 of 1

# CONDITIONS OF APPROVAL

 The OEB has developed standard conditions that are typically imposed in leave to construct approvals.<sup>1</sup> Enbridge Gas has reviewed these standard conditions and has not identified any additional or revised conditions that the Company wishes to propose for this Project.

<sup>&</sup>lt;sup>1</sup> Standard conditions of approval are included in Schedule 1 of the OEB's standard issues list for leave to construct applications: <u>https://www.oeb.ca/sites/default/files/issues-list-LTC-natural-gas.pdf</u>

# The clerk of the Town of Huntsville

On December 20, 2022, Enbridge Gas filed an Application with the OEB for an order granting leave to construct natural gas distribution pipelines and ancillary facilities that make up a Community Expansion Project to serve the Hidden Valley community in the Town of Huntsville and District of Muskoka.

On February 3, 2023, the OEB issued the Notice of Hearing and the Letter of Direction for the proceeding. The OEB has directed Enbridge Gas to serve a copy of the Notice of Hearing, Enbridge Gas' Application and the evidence listed below on the clerk of the Town of Huntsville.

- Exhibit B-1-1 Project Need
- Exhibit C-1-1 Project Alternatives
- Exhibit D-1-1 Proposed Project, Engineering & Construction
- Exhibit E-1-1 Project Cost & Economics
- Exhibit F-1-1 Environmental Matters
- Exhibit G-1-1 Land Matters & Agreements
- Exhibit H-1-1 Indigenous Consultation
- Exhibit I-1-1 Conditions of Approval

Attached please find a copy of the OEB's Notice of Hearing along with Enbridge Gas's Application and the above noted evidence as filed with the OEB for Enbridge Gas's Hidden Valley Community Expansion Project. A complete paper copy of the evidence filed in this proceeding is available upon request. The evidence can be viewed on the Enbridge Gas website by accessing the link below and navigating to "Regulatory Information".

https://www.enbridgegas.com/about-enbridge-gas/projects/hidden-valley

Thank you,

Stephanie Allman Regulatory Coordinator – Regulatory Affairs

# The District Chair of the District of Muskoka

On December 20, 2022, Enbridge Gas filed an Application with the OEB for an order granting leave to construct natural gas distribution pipelines and ancillary facilities that make up a Community Expansion Project to serve the Hidden Valley community in the Town of Huntsville and District of Muskoka.

On February 3, 2023, the OEB issued the Notice of Hearing and the Letter of Direction for the proceeding. The OEB has directed Enbridge Gas to serve a copy of the Notice of Hearing, Enbridge Gas' Application and the evidence listed below on the District Chair of the District of Muskoka.

- Exhibit B-1-1 Project Need
- Exhibit C-1-1 Project Alternatives
- Exhibit D-1-1 Proposed Project, Engineering & Construction
- Exhibit E-1-1 Project Cost & Economics
- Exhibit F-1-1 Environmental Matters
- Exhibit G-1-1 Land Matters & Agreements
- Exhibit H-1-1 Indigenous Consultation
- Exhibit I-1-1 Conditions of Approval

Attached please find a copy of the OEB's Notice of Hearing along with Enbridge Gas's Application and the above noted evidence as filed with the OEB for Enbridge Gas's Hidden Valley Community Expansion Project. A complete paper copy of the evidence filed in this proceeding is available upon request. The evidence can be viewed on the Enbridge Gas website by accessing the link below and navigating to "Regulatory Information".

# Hidden Valley Community Expansion Project

### **Project overview**

Enbridge Gas is proposing to construct the Hidden Valley Community Expansion Project to provide affordable natural gas to residents in the vicinity of Hidden Valley Road in Huntsville, Ontario (the Project). The preliminary preferred route<sup>1</sup> and ancillary facilities will be constructed for the Project in the Town of Huntsville. Enbridge Gas is proposing to construct approximately 5 km of Nominal Pipe Size (NPS) 2 Polyethylene (PE) natural gas distribution pipeline to service the community of Hidden Valley in the Town of Huntsville. The pipeline will travel east along Hidden Valley Road from Highway 60, and along Skyline Drive to Ski Club Road. Other roads to be connected off of Hidden Valley Road and Skyline Drive may include Mount Pleasant Crescent, Slalom Drive, Woodland Court, Lakeview Crescent, Chalet Crescent, and Turner Drive.

We're working in many project areas across Ontario as we prepare for future natural gas community expansion projects as part of the Ontario Government's Natural gas Expansion Program. Area residents may see our crews completing soil sampling, land surveying, test digs and holding field meetings, which are all activities that help inform our project routes and timelines for construction. This pre-work is ongoing, and you may occasionally notice equipment in operation, and some noise. We apologize for any inconvenience this might cause. This work is being conducted by Enbridge Gas employees, or contractors working on our behalf. All employees and contractors carry identification at all times.

Project status/timeline

Map is for environmental assessment purposes only and does not reflect service addresses.

#### **Regulatory information**

The Hidden Valley (Huntaville) Project is regulated by the OEB, an independent government agency that regulates the electricity and natural gas sectors. After a public review and hearing, the OEB will have the information required to consider our application. In this section, you can review all regulatory files about the project.

In accordance with the OEB's "Environmental Guidelines for the Location, Construction and Operation of Hydrocarbon Pipeline and Facilities in Ontario, 7th Edition 2016", Enbridge Gas retained the services of Stantec Consulting Ltd., an independent environmental consultant, to complete an environmental assessment for the proposed project.

The purpose of the environmental assessment is to: identify any potential impacts of the proposed project on the social, economic and natural environments; identify local or provincial concerns regarding the proposed project; determine preferred routing of the pipeline segments; gather input from agencies, stakeholders. First Nations and Metis, affected landowners, and the public. As well, it will recommend mitigation measures to limit impacts on the social, economic and natural environments. It is important to minimize potential negative impacts of the proposed natural gas distribution pipelines and associated facilities on the environment. The data, analysis and results of the environmental assessment will be detailed in an Environmental Report.

The Environmental Report is now available for review.

#### Leave-to-Construct application

The LTC application will be posted to this site once the application has been submitted.
