Dear : Ms. Marconi,

**Re: EB-2022-0178 - Entegrus Powerlines Inc. Application for a Service Area Amendment**

---

I am counsel for Hydro One Networks Inc. ("Hydro One"), and pursuant to Ontario Energy Board ("OEB") Notice of Hearing and Procedural Order No. 1, Hydro One has been granted intervenor/party status in the above-referenced proceeding.

Entegrus Powerlines Inc. ("Entegrus") has filed an application with the OEB, under section 74 of the *Ontario Energy Act, 1998*, to amend its licensed service area, as described therein, to include the property and industrial customer (the "Customer") located at 1 Cosma Court, St. Thomas, ON, which Customer is currently served by Hydro One. Hydro One contests Entegrus' application.

By letter dated October 17, 2022, Entegrus, sought confidential treatment of certain information contained in seven sections of its application which relate to customer load profile information, energy use details, and supply planning, which information has been redacted as Entegrus submits that it is presumptively confidential.

In accordance with the OEB's revised Practice Direction on Confidential Filings dated December 17, 2021, sections 4-5, Hydro One objects to Entegrus' confidentiality request, as it relates to Hydro One only, and Hydro One seeks an unredacted copy of the application as filed on the basis that: a) the Customer information (load profile, energy use details, supply planning) is not confidential information to Hydro One as it relates to its Customer and it should be entitled to receive the information to determine its accuracy; b) the redacted information is relevant

information to the matters in issue as between the parties; and c) it requires the redacted information to determine the scope of the evidence it will file on the contested application. For greater certainty, Hydro One agrees that the redacted information should not be placed on the public record, and only seeks the unredacted information for its review.

By email correspondence dated March 28, 2023, the Customer, Formet Industries, a division of Magna International Inc. ("Formet Industries") has sought intervenor status, amongst other things, and has sought an unredacted copy of the Application to be shared with the Customer only. Hydro One notes this request has also been made.

Should the OEB require any further information or clarification as to the objection made herein, kindly contact the undersigned.

Yours truly,  
**HYDRO ONE NETWORKS INC.**
