10 February 2023

Application for Transfer of License EG-2008-0353 from Magnum Wind Energy to OREC Inc.

Dear Ms Walli

I am writing to you to apply for the transfer of an existing OEB Generator License.

OREC is a for-profit cooperative based in Ottawa that manages community financed renewable energy projects in Eastern and Southwestern Ontario. Following the purchase of a wind turbine in a partnership with Enerforge in 2021 in Tiverton, ON, we are currently in the process of purchasing a second wind turbine in Zurich, ON from Magnum Wind Energy Corp.

The wind turbine we are acquiring is located at Bronson Line Concession 13 Lot 22, Bluewater, Ontario, and is currently operating under OEB Generator License # EG-2008-0353.

We submitted the application for a Generator License (please see enclosed) via the OEB portal on 6 Feb 2023, providing all the relevant information and contact details for OREC, its officers and key staff.

Since the OEB portal doesn't provide an option for a transfer application, OEB Industry Relations staff suggested we write to you to apply for a licence *transfer* under section 18 (2) of the OEB Act from the current licensee using our online application as supporting documentation.

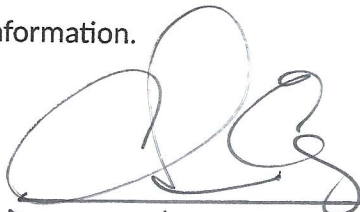

Please let me know if you require any additional information.

I look forward to hearing from you.

Best regards,

*Marion Siekierski*
