RE: Engagement on Distributor Resilience, Responsiveness and Cost Efficiency
Ontario Energy Board File No. EB-2023-0003

On April 25, 2023, the OEB will host a virtual meeting of stakeholders in support of its consultation on how to improve distribution sector resilience, responsiveness and cost efficiency.

As communicated in [earlier correspondence](#), the meeting will focus on identifying options to enhance distributors' organizational capacity to meet expectations as the climate changes, while also continuing to provide service that is affordable and responsive to customers' needs.

Proposals regarding expectations for distributors' incorporation of resilience objectives into their planning and operations will also be discussed.

The agenda and presentation materials, including discussion questions, are attached.

The [Letter of Direction](#) requires that the OEB provide its advice and proposals to the Minister by June 30, 2023

Any questions relating to this letter should be directed to Ashley Sanasie at Ashley.Sanasie@oeb.ca. The Board's toll-free number is 1-888-632-6273.

Sincerely,

Nancy Marconi
Registrar
