Issues:

AMPCO intends to review the IESO's proposed expenditures (capital and operating) and revenue requirements for the fiscal years 2023-2025 and the fees it proposes to charge in each year. AMPCO also seeks to review the basis of the ISEO's request to retain \$15 million as an operating reserve in the Forecast Variance Deferral Account (FVDA).

Policy Interests:

AMPCO is representing ratepayers in this proceeding.

Hearings:

Based on past experience, it is AMPCO's view that a written hearing should be adequate.

Evidence:

AMPCO does not plan to file evidence in this proceeding.

Coordination with Other Intervenor:

AMPCO will collaborate and coordinate with other intervenors to avoid duplication of effort.

Cost Awards:

AMPCO is applying for cost award eligibility. AMPCO was found eligible for cost awards in the IESO's previous 2022 Fees Application EB-2022-0002.

Language Preference:

AMPCO intends to participate using the English language.

Annual Filing of Frequent Intervenor

Intervenor Name:

Association of Major Power Consumers in Ontario (AMPCO)

Mandate and Objectives:

AMPCO is a not-for-profit consumer interest advocacy organization. Its mission is industrial electricity rates that are affordable, competitive and fair.

Membership of the Intervenor and Constituency Represented:

AMPCO's members represent Ontario's major industries: forestry, chemical, mining and minerals, steel, petroleum products, cement, automotive and manufacturing and business consumers in general.

AMPCO members are major investors, major employers and a major part of the communities in which they operate, across Ontario. Membership is available for industrial companies with operations in Ontario and with minimum average monthly demand greater than or equal to 1 MW. AMPCO members generally account for approximately 15 TWh of industrial electricity demand in the province on an annual basis. AMPCO is the forum of choice for major power consumers who recognize that their business success depends on an affordable and reliable electricity system.

Programs or Activities Carried Out by the Intervenor:

In addition to intervention before administrative tribunals and related court proceedings, AMPCO's other activities include participation in electricity sector technical discussions and involvement in legislative proceedings and government policy consultations.

Governance Structure:

AMPCO is governed by a Board of Directors elected from its membership. The membership of the Board includes up to 15 Directors, one President (ex-officio) and one past Chair (ex-officio).

The Board of Directors meets approximately eight times per year. The Board receives updates on regulatory items and provides direction to the President (and AMPCO's Regulatory Consultant) on all major OEB Applications and Consultations in which AMPCO participates.
