Dear Nancy Marconi:

**Re: Enbridge Gas Inc. (Enbridge Gas, or the Company)
EB-2022-0200 – 2024 Rebasing – Phase 1 Technical Conference Undertaking
Responses**

Enbridge Gas filed its 2024 Rates Application and the majority of its supporting evidence on October 31, 2022 and the balance of its evidence on November 30, 2022. In this Application, Enbridge Gas requests approval of rates for the sale, distribution, transmission, and storage of gas commencing January 1, 2024. Enbridge Gas also applies for approval of an incentive rate-making mechanism (IRM) for the years from 2025 to 2028.

On April 6, 2023 Enbridge Gas filed the majority of its undertaking responses from the Technical Conference in accordance with Procedural Order No. 1 and on April 12, 2023 it filed the remaining responses. In its letter to the OEB dated April 11, 2023 in relation to Motions Day, Enbridge Gas indicated that it would provide further responses to certain information requested in the Technical Conference by Environmental Defence (ED) and Schools Energy Coalition (SEC) in addition to responding to clarification questions received from ED and SEC. On April 18, 2023 Enbridge Gas filed updated responses to address the clarification questions.

Enclosed please find an updated response to undertaking Exhibit JT5.21, which provides an estimate of Test Year system access spending assuming a revenue horizon of 15 years further to the request from ED.

Enbridge Gas will post the responses on its website at www.enbridgegas.com/about-enbridge-gas/regulatory.
