ONTARIO PETROLEUM INSTITUTE
CORRECTION to IRR EGI 3(d)

EGI 3(d): Was Lagasco paying Enbridge Gas for any maintenance required on this station during the deactivation period?

RESPONSE:

~~OPI believes that Lagasco was paying the monthly charges levied by EGI during the deactivation period.~~

The last production delivered through Station 5D-501 was in February 2014. EGI continued to charge the monthly station fee up to and including October 2014. After October 2014, Station 5D-501 remains on the producer's GPA statements but there is a \$0 per month station fee charged.
