Toronto, Ontario, M4P 1E4

Dear Nancy Marconi:

**Re: Enbridge Gas Inc. (Enbridge Gas)
Ontario Energy Board (OEB) File No. EB-2022-0249
Hidden Valley Community Expansion Project
Interrogatory Responses - Redacted**

Enclosed please find the redacted interrogatory responses for the Hidden Valley Community Expansion Project ("Project").

In accordance with the OEB's *Practice Direction on Confidential Filings*, Enbridge Gas is requesting confidential treatment of the following exhibits. Details of the specific information and reasons for confidential treatment are set out below:

| Exhibit | Description of Document | Confidential Information Location | Brief Description | Basis for Confidentiality |
|-----------------------------------|----------------------------------|--|--------------------------|--|
| Exhibit I.STAFF.2 Attachment 1 | IR Response to Exhibit I.STAFF.2 | Page 1 | Personal Information | The redactions relate to the names and contact information of property owners. This information should not be disclosed in accordance with the Freedom of Information and Protection of Privacy Act. Pursuant to section 10 of the OEB's Practice Direction on Confidential Filings, such information should not be provided to parties to a proceeding. |
| Exhibit I.STAFF.6 Attachment 1 | IR Response to Exhibit I.STAFF.6 | Pages 16-21 | Personal Information | The redactions relate to the names and contact information of property owners. This information should not be disclosed in accordance with the Freedom of Information and Protection of Privacy Act. Pursuant to section 10 of the OEB's Practice Direction on Confidential Filings, such information should not be provided to parties to a proceeding. |
| Exhibit I.STAFF.6 Attachment 2 | IR Response to Exhibit I.STAFF.6 | Page 2 and 3 | Personal Information | The redactions relate to the names and contact information of property owners. This information should not be disclosed in accordance with the Freedom of Information and Protection of Privacy Act. Pursuant to section 10 of the OEB's Practice Direction on Confidential Filings, such information should not be provided to parties to a proceeding. |

Since filing its pre-filed evidence, Enbridge Gas has refined both the Project-specific customer attachment forecast and estimated capital costs (described in Exhibits B and E, respectively). Through refinement of Project design and the underlying attachment forecast, in the normal course of project development, Enbridge Gas identified an error whereby it counted a multi-unit condo property as a single potential customer when it should have been counted as 64 potential customers. Accordingly, the total forecasted customer attachment forecast (capture rate) has been updated from 110 to 130. Additionally, more detailed designs for the pipeline main and servicing infrastructure have allowed the Company to update Project cost estimates, resulting in an overall reduction in the Project costs from approximately \$3.5 million to \$3.3 million. As a result of the refinements described above, the Project-specific DCF analysis and PI result have also been updated. Enbridge Gas has reflected these updates throughout its responses to interrogatories contained within the attached package and will file updates to select relevant excerpts of its pre-filed evidence, with changes denoted in the margins, with the OEB not later than May 5, 2023.

Also, please note an excel version of the following exhibits have been included with this submission.

- Exhibit I.ED.1, Attachment 2
- Exhibit I.ED.5, Attachment 4
- Exhibit I.ED.24, Attachment 1

Also, please note that in Enbridge Gas's response to Exhibit I.ED.16, part e), the Company noted that it will file an updated response with the OEB no later than May 31, 2023.

The unredacted confidential Exhibits will be sent separately via email to the OEB.

The above noted submission has been filed electronically through the OEB's RESS and will be made available on Enbridge Gas's website.

If you have any questions, please contact the undersigned.

Sincerely,

Brittany Zimmer
