Nancy Marconi  
Registrar  
Ontario Energy Board  
2300 Yonge Street, 27<sup>th</sup> floor  
Toronto, ON M4P 1E4

Dear Ms. Marconi

**Re: Independent Electricity System Operator 2023, 2024 and 2025 Fees,  
Expenditure and Revenue Requirement  
CME Letter for Late Intervention to Board File No: EB-2022-0318  
Board File #: EB-2022-0318**

We are writing to seek the Board's indulgence for our inadvertence to file a letter of intervention by April 28, 2023. We are therefore requesting intervenor status and cost award eligibility in this proceeding on behalf of Canadian Manufacturers & Exporters ("CME").

CME intends to participate fully in all aspects of this hearing and is prepared to meet the deadlines outlined in Procedural Order #1 and modified in Procedural Order #2 such that there will be no disruption to the schedule from its intervention.

Please find below the requisite information about CME and its participation in this proceeding.

**1. CME and its Interest in this Proceeding**

CME is Canada's leading business network. Its members represent 75% of manufactured output in the Province of Ontario, and 90% of all exports. CME is a not-for-profit organization funded by membership fees and revenues from the services it renders to Federal and Provincial Governments and Agencies to foster the development of national and international markets for its members. About 85% of CME's 400 Ontario-based member companies are Small to Medium sized business Enterprises ("SMEs") with 500 employees or less. The views of these businesses should be considered in this proceeding.

CME's mandate and objectives, its membership and the constituency it represents, and the types of programs and activities by which it carries out its mandate, are described on CME's website, [www.cme-mec.ca](http://www.cme-mec.ca). CME's priority objectives related to Energy and the Environment are summarized in Attachment 1.

CME's members operate in energy intensive industries. Accordingly, the IESO's operations, revenue requirement and usage fees are of central concern to CME's members.

**2. Nature and Scope of CME's Intended Participation**

CME intends to participate actively in this proceeding for the purpose of:

- (a) Assuring that all relevant facts are placed in evidence for the Board's consideration;
- (b) Making submissions on the issues which the Application raises, including;
  - (i) Whether the IESO's revenue requirement and proposed usage fees are reasonable and appropriate; and
  - (ii) Whether the IESO's proposal to increase its operating reserve to \$15 million is reasonable and appropriate.

**3. Request for Evidence**

CME requests that an electronic copy of the evidence upon which the Application is based be provided to its counsel. CME does not require a hard copy of this material.

**4. Request for Cost Eligibility**

CME intends to seek a cost award in this proceeding on the grounds that its ability to participate is dependent upon a determination that it is eligible for such an award. In many prior proceedings, the Board has determined that CME is eligible for a Cost Award.

**5. BLG's Representation of CME**

Borden Ladner Gervais ("BLG") represents CME under the auspices of a written retainer agreement executed by Ian Howcroft, Vice-President of CME's Ontario Division. BLG's mandate is to represent the interests of manufacturers in those Ontario Energy Board ("OEB") proceedings which are likely to have an impact on the reliability, quality of service, and/or rates for electricity and natural gas distribution services provided to manufacturers. Vincent Caron, Director of Policy & Ontario Government Relations, of CME, is the individual with whom BLG liaises.

**6. CME Contacts**

If the relief sought in this letter is granted, then CME requests that further communications with respect to this matter be sent to the following:

### **About CME and Its Representation in OEB Proceedings**

Canadian Manufacturers & Exporters (“CME”) is Canada’s leading business network. It represents more than 10,000 leading companies nationwide and through various initiatives, touches more than 100,000 companies from coast-to-coast, engaged in manufacturing, international trade, and service-related industries. More than 85% of its members are Small to Medium sized Enterprises (“SMEs”). In Ontario, CME has about 400 members representing about 75% of manufactured output and about 90% of all exports.

One of CME’s priorities is to improve the business climate for manufacturers. Initiatives pertaining to Energy and the Environment fall within the scope of this objective and include efforts by CME to ensure that its members enjoy continued access to a reliable and cost competitive supply of energy and electricity across Canada.

In this context, CME seeks an Ontario electricity system for its members which is reliable, affordable, cost effective and economically sustainable with electricity prices for Ontario manufacturers which are competitive with electricity prices available to manufacturers located elsewhere.

Similarly, CME seeks a secure supply of natural gas at burner-tip prices in the plants of Ontario manufacturers which are competitive with such prices for manufacturers located elsewhere.

For further information on CME, please visit their website at [www.cme-mec.ca](http://www.cme-mec.ca).

CME’s authorized representative in proceedings before the Ontario Energy Board (the “Board” or “OEB”) is Borden Ladner Gervais LLP (“BLG”) represented by Emma Blanchard and Scott Pollock, with support from other BLG associates. BLG’s representation of CME in proceedings before the Board is pursuant to a written retainer agreement executed on behalf of CME by Ian Howcroft, Vice-President – Ontario Division of CME.

BLG’s mandate is to represent the interests of manufacturers in those OEB proceedings which are likely to have an impact on the rates which Ontario manufacturers pay for utility services. Vincent Caron, Director of Policy & Ontario Government Relations, of CME, is the individual with whom BLG liaises.
