 - b. details of the applicant's planned method for eliminating the LTLT arrangements for each property where the subject LTLT customers are located (i.e. details of the type of system expansion, establishing a retail point of supply, etc.)
 - c. the steps taken by the applicant to date to implement its plan. If no steps have been taken to date, provide reasons.
 - d. information that compares the applicant's planned methods to other options available to the applicant to eliminate the subject LTLT arrangements from the perspective of long term economic (cost) and engineering (system planning) efficiency.
4. The specific date; to which the parties (i.e. both the geographic and the physical distributor) agreed to extend the existing LTLT arrangements for each property where the subject LTLT customers are located.
 5. A letter from Hydro One confirming the information requested in item #4 above.

Upon receipt of the required information the Board will issue an acknowledgement letter indicating the expected date on which a decision and/or order may be rendered.

Please file two paper copies of the additional material and an electronic version in Word and in searchable Adobe Acrobat (if available) with the Board Secretary. Electronic copies may be submitted on diskette or by e-mail to boardsec@oeb.gov.on.ca.
