**Re: Newmarket-Tay Power Distribution Ltd. Reply Submission
Application for the Disposal of certain Deferral and Variance Accounts
OEB File Number: EB-2023-0109**

Dear Ms. Marconi

In accordance with Procedural Order No. 1 in the above-referenced proceeding, Newmarket-Tay Power Distribution Ltd. ("NT Power") is providing its reply submission.

NT Power has reviewed the submissions of OEB Staff and VECC. OEB Staff's view is that the current evidentiary record should be supplemented with additional information, and given the current stage in the proceeding, recommends that the OEB defer consideration of disposition of the outstanding balances in Accounts 1588 and 1589 to NT Power's subsequent IRM proceeding, for rates effective May 1, 2024. VECC similarly submitted that consideration of these balances should be subject to additional discovery. NT Power is agreeable to these suggestions and, accordingly, is requesting to withdraw its request for disposition of Accounts 1588 and 1589 at this time. NT Power will include evidence consistent with the suggestions from OEB Staff as part of its subsequent rates proceeding, as well as any other relevant information available at that time.

Sincerely,

LA Cooledge
