Dear Mr. Tomek:

**Re: Enbridge Gas Inc.
Final Post Construction Monitoring Report
Low Carbon Energy Project, EB-2019-0294**

On October 29, 2020, the Ontario Energy Board issued its Decision and Order for the above noted proceeding, which included several conditions of approval. In accordance with condition 6 (b), Enbridge Gas Inc. filed a Final Monitoring Report dated May 26, 2023. OEB staff reviewed the Final Monitoring Report and requests that Enbridge Gas Inc. provide a written response to the question below.

Condition of approval 6 (b) (v) required that the Final Monitoring Report include “a log of all complaints received by Enbridge Gas” during and after construction (emphasis added). However, Dillon Consulting reports that the Final Monitoring Report includes “[a] log of comments and complaints received during and after Project construction, up to the filing of the Post-Construction (Interim) Report” (page 5; emphasis added). The comment and complaint log is provided in Table 2 of the Final Monitoring Report.

OEB staff notes that none of the comments or complaints in Table 2 of the Final Monitoring Report are dated after December 2021, which is when the Post-Construction (Interim) Report was filed.

Did Enbridge Gas Inc. receive additional comments or complaints after December 2021? If so, please update and refile Table 2 of the Final Monitoring Report.

Please direct the response and any questions relating to this letter to the Case Manager, Ritchie Murray, at 416-544-5182 or ritchie.murray@oeb.ca.

Yours truly,

Lawrie Gluck
Manager, Applications – Natural Gas
