Dear Ms. Walli:

RE: **EB-2008-0150**

Consultation on Issues Relating to Low Income Consumers

In response to your letter of August 11, please accept this advice that Toronto Hydro, in collaboration with other major electricity distributors, wishes to make a presentation at the consultation meeting commencing September 22. Our presentation will focus on current and potential measures taken by distributors to address the concerns and needs of low-income customers, options for new initiatives that may be available to the Board, and the effects on distributor costs and risks that may follow the introduction of new initiatives. In addition, we will provide responses to selected questions posed by Board Staff. Please be assured though that at the time of presentation, we will attempt to minimize duplication of views already expressed.

Please contact me if you have any concerns or questions.

Yours truly,
