NOTICE OF APPLICATION AND WRITTEN HEARING FOR AN ELECTRICITY DISTRIBUTION RATE CHANGE

Peninsula West Utilities Limited

The Ontario Energy Board has received an application on November 01, 2007 under section 78 of the *Ontario Energy Board Act*, 1998, S.O. 1998, c. 15 (Schedule B), seeking approval for changes to the rates that Peninsula West Utilities Limited charges for electricity distribution, to be effective May 1, 2008. The Board has assigned the application file number EB-2007-0870. The Board's decision on this application may have an effect on all of Peninsula West Utilities Limited's customers.

Any change to the rates that Peninsula West Utilities Limited charges for electricity distribution will be reflected in the delivery charges. Delivery charges are one of four regular items on residential and general service customers' electricity bills and vary depending on the amount of electricity consumed.

Peninsula West Utilities Limited indicates that if the application is approved as filed, a residential customer consuming 1,000 kWh per month would experience an approximate 5.2% decrease in the electricity bill. A small general service customer consuming 2,000 kWh per month and having a monthly demand of 50 kW or lower would see an approximate 4.6% decrease in the electricity bill.
