ONTARIO ENERGY BOARD

Dear Ms. Walli,

Re: **Peninsula West Utilities Ltd.
2008 IRM Model, Sheet 3 (2007 Tariff Sheet)**

In response to the 2008 rate mechanism application OEB staff interrogatories for Peninsula West Utilities Limited EB-2007-0870 the following are our responses:

1. Deferred Project Recovery

Your 2008 model indicates a Deferred Projects Recovery rate rider will be continued for 2008; however, a review of your past rate decisions does not reveal Board authorization to continue this rate rider. Please advise whether or not the utility wishes to continue with this rate rider in its 2008 filing.

ANSWER: Peninsula West Utilities Limited made an error and does not wish to continue with this rate rider in its 2008 filing.

2. Monthly Rates and Charges for GS 50 to 4,999 kW class

A review of your current 2007 Board approved Tariff of Rates and Charges indicates that the descriptor "\$/kW" should be applied to the distribution volumetric rate, regulatory asset recovery, and the two retail transmission rates, however you 2008 model does not reflect this.

ANSWER: This was a typing error. The descriptor should reflect "\$/kW" for the GS 50 to 4,999 class for the distribution volumetric rate and the two retail transmission rates.

3. Specific Service Charges for Non-payment of Account

A review of your current 2007 Board approved Tariff of Rates and Charges indicates that the six service charges for collection of account and disconnect/reconnect should include the descriptor "\$", however you 2008 model does not reflect this.

ANSWER: Please include the descriptor "\$" for the specific service charge for non-payment of account.

Yours truly,

Karen Bubish
Chief Operating Officer
