Dear Mr. Ginis:

**Re: Enbridge Gas Inc.  
Bobcaygeon Community Expansion Project  
Ontario Energy Board File Number EB-2022-0111**

Enbridge Gas Inc. (Enbridge Gas) filed an application on May 3, 2022, for leave to construct the Bobcaygeon Community Expansion Project.

On July 5, 2022, Enbridge Gas requested an adjournment of the proceeding to no later than October 31, 2022, to provide updated evidence in support of its application. On July 6, 2022, the Ontario Energy Board (OEB) placed the application in abeyance until Enbridge Gas filed its updated evidence.

Enbridge Gas subsequently filed two additional requests for abeyance of the application on October 31, 2022, and February 28, 2023. On March 3, 2023, the OEB issued a letter stating that it would continue to hold the application in abeyance until June 30, 2023 and that it would determine the necessary procedural steps after considering any update filed, intervention request letters to date and the time that has elapsed since the application was initially filed.

On June 14, 2023, Enbridge Gas filed an updated application. The OEB is now resuming its review of the application and the application will be taken out of abeyance when Procedural Order No.1 is issued.

The OEB notes that Enbridge Gas made several updates to the application including landowner lists, permits and authorizations required, customer forecast, construction schedule and costs, and consultation records. Given these changes, the OEB has now

re-issued its Notice of Hearing for Enbridge Gas's application for leave to construct the Bobcaygeon Community Expansion Project and requires parties who previously applied for intervenor status to re-apply, should they still wish to intervene in the proceeding. It is important to review the updated application carefully to determine if you will be affected by the changes.
