Marj Moore (centre), was inducted into the Five-Pin Bowling Hall of Fame earlier this month for her lifetime of contribution to the sport. Friends and family accompanied Moore to the awards banquet, where Moore was honoured.

Marj Moore immortalized in five-pin bowling hall of fame

Marj Moore was inducted into the Five-Pin Bowling Hall of Fame on Saturday, November 3, 2007. The evening was full of surprises, as Marj had only a hint of all the friends she would be seeing to make this a truly memorable evening for herself, her family and friends.

The head table with the seven inductees, honored guests and Hall of Fame committee and presenters was the focal point as the ceremonies began. Of the hundreds in attendance Moore had about 30 family and friends looking on as the slide show rolled through the highlights of each inductee's achievements.

Walter Heeney of the Master Bowler's

Association of Canada introduced Marj as follows:

"Marj was born in Guelph, Ontario just prior to the beginning of the Great Depression. However, at the age of two and a half, Marj was brought to Goderich and was raised on a small farm about 10 miles outside of the town.

In 1947, she married Sonny, and two daughters, Barb and Linda, soon followed. As her daughters were growing up, Moore looked for some recreation and became interested in a ladies' bowling league at the newly opened centre in her hometown.

NOTICE OF APPLICATION AND WRITTEN HEARING FOR AN ELECTRICITY DISTRIBUTION RATE CHANGE

West Coast Huron Energy Inc.

The Ontario Energy Board has received an application on October 30, 2007 under section 78 of the *Ontario Energy Board Act, 1998*, S.O. 1998, c. 15 (Schedule B), seeking approval for changes to the rates that West Coast Huron Energy Inc. charges for electricity distribution, to be effective May 1, 2008. The Board has assigned the application file number EB-2007-0892. The Board's decision on this application may have an effect on all of West Coast Huron Energy Inc.'s customers.

Any change to the rates that West Coast Huron Energy Inc. charges for electricity distribution will be reflected in the delivery charges. Delivery charges are one of four regular items on residential and general service customers' electricity bills and vary depending on the amount of electricity consumed.

West Coast Huron Energy Inc. indicates that if the application is approved as filed, a residential customer consuming 1,000 kWh per month would experience an approximate 5.0% decrease in the electricity bill. A small general service customer consuming 2,000 kWh per month and having a monthly demand of 50 kW or lower would see an approximate 1.9% decrease in the electricity bill.
