VECC-1

Ref: Appendix I, Table 1

- a) Please confirm that the kW savings values reported for the Demand Response 3 program are contracted values and not actual demand reductions in each year.
- b) Does PowerStream have any record as to how much actual demand reduction was achieved in each year due to the Demand Response 3 program? If so, how much was the actual demand reduction in each year and was the demand reduction coincident with the peak interval used to establish the customers' billing demands?
