

**Enbridge Gas Inc.**

**Application for leave to construct natural gas pipeline  
and associated facilities in the Township of Selwyn**

**PROCEDURAL ORDER NO. 4**

**July 14, 2023**

Enbridge Gas Inc. (Enbridge Gas) has applied to the Ontario Energy Board (OEB) under sections 90 and 97 of the *Ontario Energy Board Act, 1998*, S.O. 1998, c. 15, (Schedule B), for an order granting leave to construct approximately 8.4 kilometres of natural gas pipeline in the Township of Selwyn. The proposed pipeline will supply natural gas to approximately 87 new customers in the Township of Selwyn who currently do not have access to natural gas service. Enbridge Gas has also applied to the OEB for approval of the form of land-use agreements it offers to landowners affected by the routing and construction of the project.

The project was selected to be eligible to receive funding assistance as part of Phase 2 of the Government of Ontario's Natural Gas Expansion Program (NGEP), which provides financial support to help utilities expand natural gas distribution into communities that are not currently connected to the natural gas system.

On June 28, 2023, the OEB issued Procedural Order No. 3, which among other matters, set the process for argument-in-chief by Enbridge Gas, written submissions by OEB staff and intervenors, and written reply submission by Enbridge Gas.

On July 10, 2023, the OEB issued a letter suspending the dates for final argument established in Procedural Order No. 3 pending further direction with respect to the consideration of the Notice of Motion filed by Environmental Defence to review the OEB's Decision on Intervenor Evidence (Environmental Deference motion).<sup>1</sup> Environmental Defence's motion relates to three applications for leave to construct currently before the OEB: Selwyn Pipeline Community Expansion Project, EB-2022-0156; Mohawks of the Bay of Quinte and Shannonville Community Expansion Project, EB-2022-0248; and Hidden Valley Community Expansion Project, EB-2022-0249 (related applications).

---

<sup>1</sup> In the July 10, 2023 letter, the OEB placed the proceeding in abeyance as of June 30, 2023.

On July 12, 2023, the OEB concluded that the appropriate time to consider any motion is after the OEB has issued its final decisions in the leave to construct proceedings referenced above.<sup>2</sup> The OEB stated that new information from the noted decisions could be relevant to any motion, and Environmental Defence could decide to revoke, amend, or file a new motion, and the OEB can determine at that time how it would consider any motion

### Next Steps

It is necessary to resume processing the application and the proceeding is no longer in abeyance effective today. The OEB is setting out a revised schedule for Enbridge Gas's argument-in-chief (including responses to the matters identified in Environmental Defence's correspondence as set out in Procedural Order No. 3), written submissions by OEB staff and intervenors and written reply by Enbridge Gas.

The OEB will also allow Enbridge Gas the option to file a single argument-in-chief for all three community expansion projects.<sup>3</sup> Similarly, if OEB staff or intervenors wish to file a single written submission for all three community expansion projects they may do so.

### THE ONTARIO ENERGY BOARD ORDERS THAT:

1. Enbridge Gas shall file an argument-in-chief with the OEB and serve it on all parties by **July 25, 2023**.
2. Any written submissions from OEB staff and intervenors shall be filed with the OEB and served on all parties by **August 9, 2023**.
3. Any written reply submission from Enbridge Gas shall be filed with the OEB and served on intervenors by **August 23, 2023**.

Parties are responsible for ensuring that any documents they file with the OEB, such as applicant and intervenor evidence, interrogatories and responses to interrogatories or any other type of document, **do not include personal information** (as that phrase is defined in the *Freedom of Information and Protection of Privacy Act*), unless filed in accordance with rule 9A of the OEB's [Rules of Practice and Procedure](#).
