

Independent Electricity System Operator Licence

EI-2013-0066

Valid Until

September 25, 2033

Brian Hewson

Vice President, Consumer Protection & Industry Performance

Ontario Energy Board

Date of Issuance: September 26, 2013

Date of Amendment: July 31, 2014

Date of Amendment: March 19, 2015

Date of Amendment: July 19, 2018

Date of Amendment: August 10, 2020

Date of Amendment: March 3, 2021

Date of Amendment: July 18, 2023

SCHEDULE A

SCHEDULE B

1 Definitions

In this Licence:

“**Act**” means the *Ontario Energy Board Act, 1998*, S.O. 1998, c. 15, Schedule B;

“**Agreement**” means an agreement as defined in section 8.1 of this Licence.

“**ancillary services**” means services necessary to maintain the reliability of the IESO-controlled grid, including, but not limited to, frequency control, black start capability, voltage control, reactive power, operating reserve and any other such services established by the Market Rules;

“**Board**” means the Ontario Energy Board;

“**Board of directors**” means the Licensee’s board of directors referred to in section 10 of the *Electricity Act*;

“**GCR**” means the general conduct rule set out in Market Rule Chapter 1, section 10A (or any successor provision);

“**Electricity Act**” means the *Electricity Act, 1998*, S.O. 1998, c. 15, Schedule A;

“**IESO-controlled grid**” means the transmission systems with respect to which, pursuant to agreements, the IESO has authority to direct operations;

“**Licensee**” means Independent Electricity System Operator established under the *Electricity Act*, and IESO has the same meaning;

“**Market Rules**” means the rules made under section 32 of the *Electricity Act*;

“**Market Surveillance Panel**” means the Market Surveillance Panel continued under Part II of the Act;

“**OPGI**” means Ontario Power Generation Inc.;

“**Regulations**” means regulations made under the *Act* or the *Electricity Act*;

“**reliability standard**” means a standard or criterion, including an amendment to a standard or criterion, relating to the reliable operation of the integrated power system that is approved by a standards authority;

“**sanction order**” means an order issued under Market Rule Chapter 3, section 6.2.7 (or any successor provision);

“**standards authority**” means the North American Electric Reliability Corporation or any successor thereof, or any other agency or body designated by regulation that approves standards or criteria applicable both in and outside Ontario relating to the reliability of transmission systems;

“transmission system” means a system for transmitting electricity, and includes any structures, equipment or other things used for that purpose;

“transmit” with respect to electricity, means to convey electricity at voltages of more than 50 kilovolts;

“transmitter” means a person who owns or operates a transmission system.

2 Interpretation

- 2.1 In this Licence words and phrases shall have the meaning ascribed to them in the Act or the *Electricity Act*. Words or phrases importing the singular shall include the plural and vice versa. Headings are for convenience only and shall not affect the interpretation of the licence. Any reference to a document or a provision of a document includes an amendment or supplement to, or a replacement of, that document or that provision of that document. In the computation of time under this licence where there is a reference to a number of days between two events, they shall be counted by excluding the day on which the first event happens and including the day on which the second event happens. Where the time for doing an act expires on a holiday, the act may be done on the next day that is not a holiday.

3 Authorization

- 3.1 The Board, in the exercise of the powers conferred by Part V of the Act, licenses the Licensee to direct the operation of the transmission system(s) in accordance with Agreements and the Market Rules, subject to the conditions set out in this Licence.
- 3.2 The Board, in the exercise of the powers conferred by Part V of the Act, also licenses the Licensee, to exercise its powers and perform its duties under the *Electricity Act*, and to operate the IESO administered markets and to do such things as may be permitted by the Market Rules or required to be done by the Licensee in furtherance of the establishment and operation of the market(s) to be administered by the Licensee, subject to the conditions set out in this Licence.

4 Licence Fees and Assessment

- 4.1 The Licensee shall pay any fees charged by the Board or amounts assessed by the Board.

5 Term of Licence

- 5.1 This Licence shall take effect on September 26, 2013 and terminate on September 25, 2033. The Board may extend the term of this Licence.

6 Provision of Information to the Board

- 6.1 The Licensee shall provide, in the manner and form determined by the Board, such information as the Board may require from time to time.
- 6.2 Without limiting the generality of paragraph 6.1, the Licensee shall, unless a Market Rule or other condition of this Licence otherwise requires:

- 6.2.1 provide such information as the Board may require from time to time to enable the Board to monitor the Licensee's compliance with the conditions of this Licence and any other legislative or regulatory requirements set out in this Licence;
 - 6.2.2 notify the Board of any material change in circumstances that adversely affects or is likely to adversely affect the Licensee's ability to comply with this Licence, its financial integrity, or its ability to carry out its responsibilities under the *Electricity Act*, as soon as practicable after the occurrence of any such change, but in any event within fifteen days of the date upon which such change becomes known to the Licensee;
 - 6.2.3 provide the Board with a copy of the annual report of the Licensee as submitted to the Minister pursuant to subsection 25.3(1) of the *Electricity Act*;
 - 6.2.4 post the annual report of the Licensee as submitted to the Minister pursuant to subsection 25.3(1) of the *Electricity Act* and the Licensee's quarterly financial statements on its public website;
 - 6.2.5 provide the Board, on or before the end of each calendar year, with the status of actions taken by the Licensee further to all recommendations addressed to the Licensee in any report issued by the Market Surveillance Panel in that year and the preceding four calendar years to the extent that they remain outstanding and, where no action has been taken in relation to a recommendation, the rationale for not taking action. The Licensee's response to recommendations in any report issued by the Market Surveillance Panel within 30 days of the end of the calendar year will be included in the succeeding report;
 - 6.2.6 provide the Board, on or before the end of each calendar year, with a summary of any significant activities related to the development of reliability standards undertaken by the Licensee pursuant to subsections 6(1)(d) or (e) of the *Electricity Act* to the extent that such information has not already been provided under section 6.4 below;
 - 6.2.7 provide the Board with any By-law amending the Licensee's Governance and Structure By-law, as referred to in section 22.(3) of the *Electricity Act*, and any notice given by the Minister under section 22.(4) of the *Electricity Act* within 15 days of the date on which the By-law is made by the Board of directors, and within 15 days of the date written notice is given to the Board of directors, as applicable;
 - 6.2.8 provide the Board with a description of any material changes to processes established by the Licensee under section 18 of the *Electricity Act*;
 - 6.2.9 provide the Board with any directions to the Licensee from the Minister, whether contained in a Ministerial directive or other document; and
 - 6.2.10 provide the Board with the verified results of each Distributor's Province-Wide Distributor CDM Programs and Local Distributor CDM Programs.
- 6.3 The Licensee shall file with the Board, within seven days of the date of the filing of an application to review a Market Rule amendment under section 33 of the *Electricity Act*, the following in respect of that Market Rule amendment:
- i. all Market Rule Amendment Submissions relating to the amendment, including any covering memoranda;

- ii. all written submissions received by the Licensee in relation to the amendment;
- iii. minutes or meeting notes of all stakeholder meetings (including meetings of the Licensee's Stakeholder Advisory Committee) and of all meetings of the Licensee's Technical Panel at which the amendment or the subject matter of the amendment was discussed;
- iv. a list of all materials related to the amendment or the subject matter of the amendment tabled before any stakeholders (including the Licensee's Stakeholder Advisory Committee) or before the Licensee's Technical Panel;
- v. a list of all materials tabled before the Board of Directors of the Licensee in relation to the amendment or the subject matter of the amendment, and a copy of all such materials other than those already captured by item (i) above;
- vi. a copy of the decision of the Board of Directors of the Licensee adopting the amendment;
- vii. any final report conducted or commissioned solely by the Licensee, and not subsequently circulated outside of the IESO, comprising an analysis relating to the costs and benefits of the amendment to the extent not already captured by any of the items above;
- viii. all materials (excluding correspondence and draft materials) relating to the development and consideration of options that involved alternatives to the amendment, to the extent not already captured by any of the items above, which are authored or commissioned solely by the Licensee and not subsequently circulated outside of the IESO; and
- ix. any materials (excluding correspondence and draft materials) relating to the consistency of the amendment with the purposes of the *Electricity Act*, to the extent not already captured by any of the items above, which are authored or commissioned solely by the Licensee and not subsequently circulated outside of the IESO.

6.4 The Licensee shall provide the Board, within seven business days of the posting of a reliability standard under section 36.2(1) of the *Electricity Act*, with:

- i. a summary that describes the purpose of the standard;
- ii. the class(es) of Ontario market participants to which the standard will apply;
- iii. the anticipated technical impact in Ontario;
- iv. the magnitude of costs associated with implementation, if known by the Licensee;
- v. the level of IESO support for the reliability standard including any Ontario market participant opposition, if known by the Licensee, and the result of the final vote of the Registered Ballot Body of NERC or NPCC; and
- vi. any salient history including identification of a non-ANSI standard.

6.5 The Licensee shall notify the Board promptly upon becoming aware that the Federal Energy Regulatory Commission has issued an order approving a reliability standard or remanding it back to the relevant standards authority.

- 6.6 Where the Licensee engages in a consultation regarding a non-ANSI standard, the Licensee shall provide the Board with a copy of the notice of its determination pursuant to section 1.2.7 of Chapter 5 of the Market Rules immediately after it is published, and that includes:
- i. a description of the consultation process, including the identity of the market participants that were consulted;
 - ii. a summary stakeholder feedback expressed during the consultation;
 - iii. the outcome of the consultation; and
 - iv. where the outcome is the rejection of the non-ANSI standard, an indication of whether a “made in Ontario” standard is being considered in lieu of the non-ANSI standard.

7 Obligation to Comply with Legislation and Market Rules

- 7.1 The Licensee shall comply with all applicable provisions of the Act, the *Electricity Act* and Regulations.
- 7.2 The Licensee shall comply with all applicable provisions of the Market Rules.
- 7.3 Where the Licensee is satisfied that the GCR has been breached, prior to making a sanction order and if the market participant under investigation so elects, the Licensee shall apply to the Board to:
- 7.3.1 make a determination as to whether the GCR has been breached; and
 - 7.3.2 make findings of fact relevant to the imposition of one or more sanction orders by the Licensee.

Where the Board determines that the GCR has been breached, subject to any rights of appeal or review, the Board shall return the matter to the Licensee to determine a sanction order.

8 Transmission System Agreement

- 8.1 The Licensee may enter into an agreement (“Agreement”) with any transmitter providing for the direction by the Licensee of the operation of the transmitter’s transmission system. Following a request by the Licensee to enter into an Agreement, the Licensee and the transmitter shall enter into an Agreement within a period of 90 days, unless extended with leave of the Board. The Agreement shall be filed with the Board within 20 days of its completion.
- 8.2 The agreements referred to in paragraph 8.1 shall cover all such transmission assets and facilities as may, in the opinion of the Licensee, be necessary to enable the Licensee to meet its obligations under the *Electricity Act* and the Market Rules.
- 8.3 Where necessary for the purpose of the agreements referred to in paragraph 8.1, and upon request by the Licensee, the Board may in the exercise of the powers conferred by section 84 of the Act determine that a system, or part of a system, that is or forms part of a distribution system is a transmission system or part of a transmission system.

- 8.4 Where the Licensee and any party referred to in paragraph 8.1 are unable to reach agreement upon the terms and conditions of a proposed Agreement, or an amendment to an Agreement, the matter shall be determined by the Board.

9 Transmission System Access

- 9.1 The Licensee shall take all reasonable steps to ensure non-discriminatory access is provided to the IESO-controlled grid for all generators, retailers, and consumers, in accordance with the Licensee's responsibility for directing the operation of the transmission systems, the Market Rules, applicable reliability standards and the conditions of this Licence.
- 9.2 In directing the operation of the IESO-controlled grid, the Licensee may give direction to market participants and other persons in accordance with Agreements and the Market Rules.

10 Must Run Contracts

- 10.1 The Licensee shall, as needed, identify in accordance with the Market Rules facilities that it may require to operate in specific ways for reasons of system reliability, other than for reasons of a lack of overall adequacy of the IESO-controlled grid, regardless of whether dispatch data has been submitted with respect to such facilities.
- 10.2 The Licensee shall, as needed, negotiate and conclude agreements ("reliability must-run contracts") with the persons licensed by the Board in respect of the facilities identified pursuant to paragraph 10.1.
- 10.3 Where the Licensee and any party referred to in paragraph 10.2 are unable to reach agreement upon the terms and conditions of a proposed Agreement, or an amendment to an Agreement, the matter shall be determined by the Board.

11 Ancillary Services Contract

- 11.1 The Licensee shall, as needed, identify in accordance with the Market Rules the facilities that it may require to provide contracted ancillary services.
- 11.2 The Licensee shall, as needed, negotiate and conclude agreements ("ancillary services contracts") with the persons licensed by the Board in respect of the facilities identified pursuant to paragraph 11.1.
- 11.3 Where the Licensee and any party referred to in paragraph 11.2 are unable to reach agreement upon the terms and conditions of a proposed Agreement, or an amendment to an Agreement, the matter shall be determined by the Board.

12 Procuring Ancillary Services Through Markets

- 12.1 The Licensee may, as needed, procure any category of ancillary services in accordance with the Market rules when it determines that, based on any number of independently controlled and competing alternatives and other circumstances at its discretion, such services may be provided more efficiently and cost-effectively through a market-based process for that category of ancillary services.

- 12.2 (Note: Market based ancillary services are currently comprised of Operating Reserves only, but the principles outlined herein suggest a framework that could be used for other market based ancillary services.)

Unless the IESO has determined, based on the number of independently controlled competing alternatives and other circumstances in its discretion, that a competitive market for any category of operating reserves (i.e. 10-minute and 30-minute) exists, OPGI shall be required to comply with the following requirements:

- 12.2.1 subject to (a.1), the price to be offered by OPGI associated with each category of OPGI operating reserve services will not exceed a cap to be contained in an agreement to be negotiated between OPGI and the IESO, which cap will be designed, taking into account the relevant IESO market rules, to compensate OPGI for its actual cost of providing such operating reserve services, including additional operating and maintenance costs, additional fuel costs, additional opportunity costs associated with providing such operating reserve services from OPGI hydroelectric generation units, and a reasonable rate of return on incremental capital needed to provide such operating reserve services, and which agreement shall require OPGI to offer the maximum available amount of each category of operating reserve services, consistent with good utility practices, for each OPGI generation unit capable of providing such services;
- (a.1) notwithstanding (a) above, save and except where the IESO has advised OPGI that specific units are required to offer in for reliability, OPGI may offer less than the maximum available amount of any category of operating reserve where this is necessary in order for OPGI to satisfy its obligations under, or to give effect to, any shareholder declaration or resolution of the Minister of Energy in effect at the relevant time relating to, or any Regulation made under the Environmental Protection Act (Ontario) relating to, carbon dioxide (CO₂) emissions arising from the use of coal at OPGI's coal-fired generation stations;
- 12.2.2 subject to (a.1), in the event that the agreement referred to in (a) above cannot be reached, the terms of such agreement shall be determined through binding commercial arbitration by a mutually agreed independent arbitrator on agreed terms of arbitration;
- 12.2.3 subject to (a.1), in the event that either OPGI or the IESO subsequently determines that the operation of the market is such that the intent of the agreement referred to in (a) or (b) above is materially frustrated, then OPGI and the IESO shall negotiate amendments (which may be retroactive) to the terms of such agreement with a view to correcting such situation and, in the event that they cannot agree on such amendments, the amendments, if any, shall be determined through binding commercial arbitration by a mutually agreed independent arbitrator on agreed terms of arbitration;
- 12.2.4 subject to (a.1), OPGI shall comply with the terms of the agreement referred to in (a) or (b) above, as it may be amended under (c) above;
- 12.2.5 subject to (a.1), pending reaching an agreement, or pending the resolution of any dispute, the IESO may at any time set the price cap and terms on which OPGI must provide any category of operating reserve services, subject to later adjustment upon final agreement or final resolution of the dispute with interest at the Prime Rate, calculated and accrued daily; and

12.2.6 subject to (a.1), if the IESO's market rules at any time are such that the market clearing price for a category of operating reserve services does not include both the offer price and the opportunity cost of the marginal unit providing the service, and the agreement referred to in (a) or (b) above has not taken such factors into account, then the agreement referred to in (a) or (b) above shall be considered to have been materially frustrated for purposes of (c) above.

12.3 Notwithstanding paragraph 12.1, the Licensee shall honour all existing agreements entered into prior to the issuance of this licence, with respect to the provision of an ancillary service, until such time that the agreement expires or is terminated by the mutual consent of the parties thereto.

13 Fees and Charges

13.1 The Licensee may impose fees and charges to recover the cost of its activities in accordance with an order of the Board, or as permitted by law.

14 Books of Accounts and Financial Reporting

14.1 The Licensee shall maintain proper books of account and adhere to generally accepted accounting practices, and shall maintain such financial records or accounts as the Board may require from time to time. The Licensee shall notify the Board of any material change to its accounting procedures.

14.2 Unless otherwise provided by law, the Licensee shall establish and maintain, in accordance with the direction or orders of the Board where applicable, such variance accounts as may be necessary to record all amounts payable or receivable by it under the *Act* or the *Electricity Act*.

14.3 Unless otherwise provided by law, the Licensee shall, no less than 60 days before the beginning of the Licensee's fiscal year submit the Licensee's proposed expenditure and revenue requirements for the following fiscal year and the fees it proposes to charge during that year to the Board for review and approval. The Licensee's submission shall include a copy of the Licensee's annual business plan for the fiscal year as approved by the Minister under section 24 of the *Electricity Act*.

15 Administration Rates¹

15.1 The IESO shall enter into and comply with a settlement agreement with OPGI consistent with the provisions in Schedules A and B to this licence.

16 Access to Other Markets

16.1 The IESO shall use all reasonable efforts consistent with the purposes of the *Electricity Act*, including by seeking to make appropriate amendments to the Market Rules related to transmission service and connection and access to the IESO-controlled grid, to ensure that Ontario generators have access to customers in interconnected jurisdictions equivalent to the access afforded to generators in those other jurisdictions.

¹ This licence condition, including Schedules A and B, originated from a Ministerial Directive dated March 16, 1999 and approved by Order in Council 600/99 dated March 24, 1999. The rebate mechanism referred to in the Schedules was effective until April 30, 2009.

17 Market Power Mitigation Monitoring²

- 17.1 The Market Surveillance Panel of the IESO shall, in carrying out its duties under the *Electricity Act*, and the Market Rules, have due regard to the conditions of licence of OPGI and, in particular, Paragraph 3 of Part 3 of the licence of OPGI.

18 Maintaining Confidentiality³

- 18.1 Subject to the Market Rules and applicable law, the IESO shall use its reasonable efforts to ensure that it maintains all data contained in the Model Output Data that represents q^h data or FMRC_h data in confidence (with all such terms having the meanings ascribed thereto in paragraph 1 of Part 3 of OPGI's licence).

19 Communication

- 19.1 The Licensee shall designate a person that will act as a primary contact with the Board on matters related to this Licence. The Licensee shall notify the Board promptly should the contact details change.
- 19.2 All official communication related to this Licence must be in writing.
- 19.3 All written communication is to be regarded as having been given by the sender and received by the addressee:
- 19.3.1 when delivered in person to the addressee by hand, by registered mail or by courier;
 - 19.3.2 10 business days after the date of posting by regular mail; and
 - 19.3.3 when received by facsimile or electronic transmission by the addressee, according to the sender's transmission report.

20 Copies of the Licence

- 20.1 The Licensee shall:
- 20.1.1 post this Licence on its website and make a copy of this Licence available for inspection by members of the public at its office during normal business hours; and
 - 20.1.2 provide a copy of this Licence to any person who requests it. The Licensee may impose a fair and reasonable charge for the cost of providing copies.

² This licence condition originated from a Ministerial Directive dated March 16, 1999 and approved by Order in Council 600/99 dated March 24, 1999. The Market Surveillance Panel was transferred to the Ontario Energy Board effective January 1, 2005.

³ This licence condition originated from a Ministerial Directive dated March 16, 1999 and approved by Order in Council 600/99 dated March 24, 1999. The corresponding provision is in Part 2 of OPGI's licence, and not Part 3.

21 Regional Planning

21.1 For the purposes of this section 21:

“Integrated Regional Resource Plan” means a document prepared by the Licensee that identifies the appropriate mix of investments in one or more of conservation and demand management, generation, transmission facilities or distribution facilities, or other electricity system initiatives in order to address the electricity needs of a region in the near- (up to 5 years), mid- (5 to 10 years), and long-term (10 to 20 years);

“integrated regional resource planning process” means a planning process led by the Licensee for the purpose of preparing an Integrated Regional Resource Plan for a region;

“lead transmitter” means a licensed transmitter that is leading a regional planning process in a region;

“region” means an area within which the lead transmitter’s transmission system is located, in whole or in part, and that has been designated as such by the lead transmitter, in consultation with the Licensee, under section 3C.2.2(a) of the Transmission System Code, for regional planning purposes;

“Regional Infrastructure Plan” means a document prepared by the lead transmitter that identifies investments in transmission and/or distribution facilities that should be developed and implemented on a coordinated basis to meet the electricity infrastructure needs within a region;

“regional infrastructure planning process” means a planning process led by the lead transmitter in accordance with section 3C of the Transmission System Code for the purpose of preparing a Regional Infrastructure Plan for a region; and

“regional planning” means a planning process involving licensed transmitter(s), licensed distributor(s), and the Licensee for the purpose of determining whether a Regional Infrastructure Plan and/or an Integrated Regional Resource Plan is required for a region and, where required, developing or updating a Regional Infrastructure Plan and/or an Integrated Regional Resource Plan.

21.2 Regional Planning Obligations

21.2.1 The Licensee shall, in consultation with licensed transmitters and licensed distributors in a region, carry out its regional planning obligations.

21.2.2 For the purposes of section 21.2.1, the Licensee shall:

- (a) Complete a scoping assessment to determine the appropriate regional planning approach, for a region, within 90 days of being notified by the lead transmitter that regional planning is necessary; specifically, whether an integrated regional resource planning process is required first or a regional infrastructure planning process should proceed immediately. The Licensee shall provide the scoping assessment outcome report to all licensed distributors and licensed transmitters in the region and post it on its website upon completion;
- (b) Complete an Integrated Regional Resource Plan, within 18 months of determining that an integrated regional resource planning process is necessary for a region, and inform the lead

- transmitter and participating distributors of any potential investment in transmission and/or distribution facilities that are required to meet the electricity needs of the region over the next twenty years. The Licensee shall provide the Integrated Regional Resource Plan to all licensed distributors, licensed transmitters and municipalities in the region and post it on its website upon completion. Where an Integrated Regional Resource Plan has not been completed within 18 months, the Licensee shall take no longer than two years to complete the Integrated Regional Resource Plan and shall notify the Board in writing explaining the reason(s) an Integrated Regional Resource Plan could not be completed within 18 months, identify the applicable region and the additional time required, up to a maximum of six additional months;
- (c) Where the Licensee has not completed an Integrated Regional Resource Plan and has determined an urgent investment in transmission and/or distribution facilities needs to be advanced from the integrated regional resource planning process to meet a near-term need, the Licensee shall immediately complete an Urgent Letter that notifies the lead transmitter and participating distributors of any investment in transmission and/or distribution facilities that are necessary to meet the electricity needs of the region over the next five years;
 - (d) Participate in the regional infrastructure planning process, as required by the lead transmitter, where a Regional Infrastructure Plan is determined to be necessary for a region;
 - (e) Provide the lead transmitter with any information that the transmitter requests for regional planning purposes, within 30 days of a request or a period of time that the Licensee and the lead transmitter agree upon;
 - (f) In consultation with the lead transmitter, review the boundaries of the regions in the Province no less than once every five years to determine whether they need to be modified;
 - (g) Provide an annual report to the lead transmitter, on October 1st of each year, identifying the status of any investments in conservation and demand management, generation and/or other electricity system initiatives, for each region, in the lead transmitter's transmission system, where an Integrated Regional Resource Plan has been completed; and
 - (h) Where there is a consensus among the Licensee, the lead transmitter and the applicable licensed electricity distributors in a region that a material change has occurred during the Regional Infrastructure Planning process, the Licensee shall complete an expedited Integrated Regional Resource Plan for the region or sub-region, as applicable, within 12 months of reaching that consensus and provide a report to all licensed transmitters and licensed distributors in the region, in a form that can be used by the lead transmitter as an Addendum to the applicable Regional Infrastructure Plan. The Licensee shall also post the report on its website upon completion. Where an expedited Integrated Regional Resource Plan has not been completed within 12 months, the Licensee shall notify the Board in writing explaining the reason(s) it could not be completed within 12 months, and identify the applicable region and the additional time required, up to a maximum of three additional months.

22 Cyber Security Information Sharing

22.1 For the purposes of section 22:

Cyber Security refers to measures protective of the integrity of networks, systems, and electronic data from attack, damage, or unauthorized use or access.

Cyber Security Situational Awareness refers to the accurate perception of the elements of a cyber-threat, in the time and environment in which it operates, the associated risks and impact, the adequacy of available risk mitigation measures, and the ability to project the status of the cyber threat into the near future, enabling effective decision making and risk resiliency.

21.3 Cyber Security Information Sharing Obligations

22.2.1 The Licensee shall, in consultation with licensed transmitters and licensed distributors in the province, carry out the services, referred to as Cyber Security Information Sharing services, outlined in 22.2.2 a) and b).

22.2.2 The Licensee shall:

- (a) Provide and promote centralized Cyber Security Information Sharing services, accessible to all licensed transmitters and distributors, including, without limitation:
 - i. Cyber Security Situational Awareness – provide consolidated and easily understood information about, and analyses of, potential cyber security risks and events that may impact the electricity sector. Establish metrics to assess effectiveness of delivery of information.
 - ii. Information exchange – develop and maintain a centralized mechanism for sharing cyber security best practices. Establish metrics to assess the improvement in sector understanding of cyber security risks and solutions.
- (b) Provide the Board, in the manner and form determined by the Board, a status report on its Cyber Security Information Sharing services, highlighting the impact of measures taken, their contribution to the adoption of best practices, and participation and engagement levels from licensed transmitters and distributors. In its first status report, the Licensee shall identify and explain the metrics it has established pursuant to paragraph 22.2.2(a). In subsequent status reports, the Licensee shall describe its performance against those metrics.

23 Settlement of COVID-19 Energy Assistance Plan Funding

23.1 For the purposes of paragraphs 23.1 to 23.7:

“CEAP” means the COVID-19 Energy Assistance Program as described in the Board’s Decision and order dated January 18, 2021 (EB-2020-0163),

“Utility” means an electricity distributor or a unit sub-meter provider licensed by the Board

23.2 Subject to paragraph 25.1, the Licensee shall distribute to Utilities the funds it receives from the Government of Ontario for the purposes of CEAP in accordance with paragraphs 23.3 to 23.6.

23.3 Subject to paragraph 23.6, the Licensee shall reimburse each Utility for any credits provided by the Utility to eligible residential customers on account of CEAP , and shall do so on a monthly basis commencing in August 2020 and in accordance with paragraph 23.4.

- 23.4 Reimbursement shall be made to a Utility following receipt of a claim submitted in accordance with such settlement instructions as the Licensee may reasonably provide, and in accordance with such settlement processes as the Licensee may reasonably apply having regard to efficiency and the time limited nature of CEAP.
- 23.5 The Licensee is not required to independently verify the claims for reimbursement submitted by a Utility, and may rely on the information contained in such claims for the purposes of making reimbursement.
- 23.6 The Licensee shall not reimburse a Utility an amount greater than the total aggregated amount of CEAP and CEAP-SB funding that has been allocated to that Utility by the Board.
- 23.7 The Licensee shall:
- (a) keep complete records of its settlement activities under paragraphs 23.1 to 23.6 for a period of two years following the date on which the last report is made to the Board under paragraph 23.7(b), and provide them to the Board on request; and
 - (b) report the following information to the Board, in such form as may be required by the Board, on the 20th day of each month starting August 20, 2020 and until such time as the funds provided to the Licensee by the Government of Ontario on account of CEAP have been expended and the Licensee has fully reported to the Board thereon:
 - (i) The amount of CEAP funding (on both a monthly and total basis) claimed by each Utility; and
 - (ii) The amount of CEAP funding (on both a monthly and total basis) distributed by the Licensee to each Utility.

24 Settlement of COVID-19 Energy Assistance Plan – Small Business Funding

24.1 For the purposes of paragraphs 24.1 to 24.7:

“CEAP-SB” means the COVID-19 Energy Assistance Program – Small Business as described in the Board’s Decision and Order dated January 18, 2021 (EB-2020-0186).

“Utility” means an electricity distributor or a unit sub-meter provider licensed by the Board

- 24.2 Subject to paragraph 25.1, the Licensee shall distribute to Utilities the funds it receives from the Government of Ontario for the purposes of CEAP-SB in accordance with paragraphs 24.3 to 24.6.
- 24.3 Subject to paragraph 24.6, the Licensee shall reimburse each Utility for any credits provided by the Utility to eligible customers on account of CEAP-SB, and shall do so on a monthly basis commencing in October 2020 and in accordance with paragraph 24.4.
- 24.4 Reimbursement shall be made to a Utility following receipt of a claim submitted in accordance with such settlement instructions as the Licensee may reasonably provide, and in accordance with such settlement processes as the Licensee may reasonably apply having regard to efficiency and the time limited nature of CEAP-SB.

- 24.5 The Licensee is not required to independently verify the claims for reimbursement submitted by a Utility, and may rely on the information contained in such claims for the purposes of making reimbursement.
- 24.6 The Licensee shall not reimburse a Utility an amount greater than the total aggregated amount of CEAP-SB and CEAP funding that has been allocated to that Utility by the Board.
- 24.7 The Licensee shall:
- (a) keep complete records of its settlement activities under paragraphs 24.1 to 24.6 for a period of two years following the date on which the last report is made to the Board under paragraph 24.7(b), and provide them to the Board on request; and
 - (b) report the following information to the Board, in such form as may be required by the Board, on the 20th day of each month starting October 20, 2020 and until such time as the funds provided to the Licensee by the Government of Ontario on account of CEAP-SB have been expended and the Licensee has fully reported to the Board thereon:
 - (i) The amount of CEAP-SB funding (on both a monthly and total basis) claimed by each Utility; and
 - (ii) The amount of CEAP-SB funding (on both a monthly and total basis) distributed by the Licensee to each Utility.

25 Settlement of CEAP and CEAP-SB From Pooled Funds

- 25.1 Subject to paragraphs 23.6 and 24.6, further to a claim by a Utility the Licensee shall reimburse the Utility:
- (a) for credits provided by the Utility under CEAP from funds the Licensee receives from the Government for the purposes of CEAP-SB; and
 - (b) for credits provided by the Utility under CEAP-SB from funds the Licensee receives from the Government for the purposes of CEAP.

Defined terms used in this paragraph have the meanings given to them in paragraphs 23.1 and 24.1.

SCHEDULE A

TERMS AND CONDITIONS OF SETTLEMENT AGREEMENT BETWEEN IMO & OPGI

For these purposes, terms with initial capitals not otherwise defined herein shall have the meanings ascribed thereto in paragraph 1 of Part 3 of the licence conditions of OPGI or the IMO's Market Rules, as applicable.

OPGI will be required to rebate annually to the IMO. As soon as practicable and preferably within 15 days following the final settlement of transactions which occurred during each Settlement Period, the IMO shall calculate the Rebate and notify OPGI of such calculated Rebate.

If OPGI agrees with the IMO's calculation then, within 30 days of being notified, OPGI will be required to pay such Rebate, if any, to the IMO. If OPGI does not agree with the IMO's calculation and the parties can agree within a further 30 days on a revised Rebate, then, within 30 days of so agreeing, OPGI will be required to pay the agreed revised Rebate, if any, to the IMO. If OPGI does not agree with the IMO's calculation and the parties cannot agree on a revised Rebate within such further 30 day period, then the matter shall be finally determined by arbitration by the Dispute Resolution Panel of the IMO, and, within 30 days of such final determination, OPGI will be required to pay the finally determined Rebate, if any, to the IMO. The initially calculated, agreed revised, or finally determined Rebate, as applicable, shall be the Rebate in respect of such Settlement Period for all purposes hereof. Unless the Rebate is paid within 30 days of the IMO notifying OPGI, interest at the Prime Rate, calculated and accrued daily, from such 30th day until the date of payment to the IMO will in all cases be added to (and based upon) the final Rebate owing.

Following payment of the Rebate by OPGI to the IMO, the IMO shall pay or apply the Rebate as follows:

- a) representing interest or GST, the IMO shall pay the Rebate, including GST and interest, to all persons who were Market Participants in Ontario during the Settlement Period and who pursuant to the Market Rules had attributed to them during the Settlement Period an allocated quantity of energy withdrawn at a Delivery Point (the "Ontario Payees"). The IMO shall pay the Rebate to Ontario Payees by the next IMO Payment Date for the real-time market following the end of the month in which the payment from OPGI is received and the IMO shall distribute payment of the Rebate to Ontario Payees in proportion to the allocated quantities of energy withdrawn at a Delivery Point which were attributed to each Ontario Payee during the Settlement Period. The IMO may, to the extent practicable, pay the Rebate to all or some Ontario Payees by applying a Rebate settlement credit to the Ontario Payees' applicable Settlement Statements; and
- b) Where the Rebate is less than \$10 million, exclusive of any amounts representing interest or GST, the IMO shall retain and apply the Rebate, inclusive of any amounts representing interest or GST, to offset the IMO Administration Charge imposed on Market Participants in accordance with section 4.5, Chapter 9 of the Market Rules, during the period in which the first order of the OEB approving the IMO Administration Charge made:
 - (i) pursuant to subsection 19(2) of the *Electricity Act*, 1998, and
 - (ii) subsequent to the date on which payment of the Rebate is received by the IMO, is in effect.

Where paragraph (a) applies, if by the date upon which the IMO is required to pay the Rebate to Ontario Payees, the IMO cannot locate an Ontario Payee, or a successor or other representative of the said Ontario Payee to whom the IMO is permitted or required by law to pay the said Ontario Payee's share of the Rebate, the IMO shall retain the said Ontario Payee's share of the Rebate for a period of 90 days from the date upon which the Rebate is otherwise payable to all other Ontario Payees, and during this period the IMO will make commercially reasonable efforts to locate and payout the applicable share of the Rebate to the said Ontario Payee or his successor or other legal representative. If the IMO is unable to locate the said Ontario Payee or his successor or other legal representative within this 90 day period, the IMO shall retain the said Ontario Payee's share of the Rebate and apply it to the IMO Administration Charge in accordance with paragraph (b), as set out herein.

Nothing shall preclude agreements that require the purchaser to return the rebate or any portion thereof to OPGI or any other party.

The Settlement Agreement may also include the following terms:

- Definitions and Interpretation
- Notice by OPGI to IMO of Payment and Non-Payment
- Appropriate limitations of liability
- IMO shall recover its reasonable rebate administration expenses through its fees
- Appropriate indemnification provisions
- IMO to act on its own behalf and as agent for Ontario Metered Market Participants entitled to rebates to the extent of their interests, and such Metered Market Participants are entitled, provided that they give a satisfactory funded indemnity to the IMO, to enforce, by arbitration, the Settlement Agreement directly against OPGI if desired, with reasonable assistance to be provided by IMO at their expense
- IMO may assign agreement to a qualified replacement upon approval of OEB. No other assignments without consent of other party and OEB
- IMO may subcontract any duties required of it
- Fund transfer instructions, which may be changed on notice to OPGI by IMO
- Arbitration clause with Dispute Resolution Panel as arbitrator
- Recipient registrants responsible for all taxes, if any
- Any interest earned on funds by IMO shall be paid to recipient registrants similarly to other funds
- IMO not to be viewed as in conflict in any respect as a result of its participation in the Settlement Agreement
- IMO may hold funds on deposit with a Canadian financial institution or in short-term obligations of the federal or Ontario government or any Canadian financial institution
- IMO may, but shall not be obliged to, retain and refrain from distributing any funds in the event of any dispute, and may seek advice from the Dispute Resolution Panel
- Termination of agreement when OPGI Rebate obligations terminate and all funds distributed or applied. OPGI/IMO indemnification obligations and third party enforcement rights to survive termination, former indefinitely and latter for 2 years only
- IMO may rely on any document which it believes to be genuine and on the advice of counsel, if it acts in good faith
- IMO not responsible for any non-payment by OPGI
- Binding on successors and permitted assigns
- Notice Clause
- Only may be amended in writing
- Governed by the laws of Ontario

- Counterparts clause
- Further assurances clause

SCHEDULE B

ADDITIONAL TERMS AND CONDITIONS OF SETTLEMENT AGREEMENT BETWEEN IMO & OPG

The following sets out the procedure for calculating, allocating and passing through the Market Power Mitigation Agreement (MPMA) Rebate. Where there is a conflict between Schedule A in the Minister's Directive dated March 24, 1999, as amended or replaced by a subsequent Ministerial Directive dated February 25, 2003 which relates to Order-in-Council 654/2003 (dated March 19, 2003), and subsequent Orders-in-Council including Order-in-Council No. 843/2003 (dated April 2, 2003), Order-In-Council No. 207/2005 (dated February 16, 2005), Order-in-Council No. 1909/2005 (dated December 7, 2005), Order-in-Council No. 141/2006 (dated February 3rd, 2006), Order-in-Council No. 1062/2006 (dated May 17, 2006) and this Schedule B, then this Schedule B prevails.

For the First Settlement Period (May 1, 2002 to April 30, 2003)

- 1) The first MPMA Rebate is to be paid out for the 9-month period ending January 31, 2003. This is the amount, as calculated by the IMO and agreed to by OPG, that OPG is required to rebate for the nine month period, based on OPG's MPMA license conditions, less the interim payment already made by OPG of approximately \$335 million and amounts relating to decontrol applications pending before the Ontario Energy Board. OPG is to pay this net amount to the IMO by May 9, 2003.
- 2) The second MPMA Rebate will cover the three-month period February 1, 2003 to April 30, 2003 inclusive. This is the amount, as calculated by the IMO and agreed to by OPG, that OPG is required to rebate for the three month period, based on OPG's license conditions, adjusted for any true-up required to ensure that the sum of the two rebates for the first settlement period, including the interim payment, is equal to OPG's full rebate requirements for the first Settlement Period under the OPG's MPMA license conditions. OPG is to pay this amount to the IMO by August 12, 2003.
- 3) The IMO will pay the pro rata share of the first MPMA Rebate and the second MPMA Rebate based on the allocated quantity of energy withdrawn during the applicable period by market participants who are receiving the fixed price under sections 79.4 and 79.5 of the *Ontario Energy Board Act, 1998* to the Ontario Electricity Financial Corporation.
- 4) The IMO will pay the pro rata share of the first MPMA Rebate and the second MPMA Rebate based on the allocated quantity of energy withdrawn during the applicable period by market participants who are not distributors and are not receiving the fixed price under sections 79.4 and 79.5 of the *Ontario Energy Board Act, 1998* directly to those market participants or their assignees that are market participants where the market participants have assigned their MPMA rebate.
- 5) The IMO will pay to distributors who are market participants, including host distributors on behalf of their embedded distributors, the pro rata share of the first MPMA Rebate and the second MPMA Rebate based on the share of energy withdrawn during the applicable period by consumers in the distributor's or embedded distributor's respective service areas who are not receiving the fixed price under sections 79.4 and 79.5 of the *Ontario Energy Board Act, 1998* and by customers of retailers who have assigned all or a portion of their entitlement to an MPMA Rebate to that retailer. In making these calculations and payments the IMO will rely on the information reported by the distributors to the IMO as required under Appendix D. Once the IMO has received the information from the distributors and disbursed the first MPMA Rebate or the second MPMA Rebate in accordance with this Schedule B, there shall be no opportunity to

correct any such information or provide any additional information and all amounts paid shall be final and binding and not subject to any adjustment.

- 6) After making the payments set out in 3), 4), and 5), the IMO is to pay any remaining Rebate to the Ontario Electricity Financial Corporation to offset in whole or in part the cost of providing the fixed price of 4.3 cents per kilowatt hour to consumers who are eligible to receive, are receiving or have received the fixed price under sections 79.4 and 79.5 of the *Ontario Energy Board Act, 1998*. Any amounts returned to the IMO by distributors in accordance with their license conditions shall be paid over to the Ontario Electricity Financial Corporation.

For the Settlement Periods (May 1, 2003 to January 31, 2005)

- 7) For each Settlement Period or partial Settlement Period from May 1, 2003 to January 31, 2005, OPG is to make quarterly MPMA Rebate payments to the IMO, consistent with OPG's MPMA license conditions, as calculated by the IMO and agreed to by OPG. The IMO and OPG may agree to appropriate true-up and carry forward mechanisms provided that these are consistent with forwarding the Rebate as soon as practicable.
- 8) For each Settlement Period or partial Settlement Period from May 1, 2003 to January 31, 2005 the MPMA rebate payments to market participants will be calculated and determined by the IMO as follows:

$$\text{BPPR} = [(\text{WAP} - \text{CAP}) \times 0.5 \times \text{TAQEW}]$$

Where:

"Business Protection Plan Rebate" or **"BPPR"** is the MPMA Rebate paid out to consumers who are not receiving the fixed price under sections 79.4 and 79.5 of the *Ontario Energy Board Act, 1998*. The BPPR is to rebate half of the amount by which the weighted average commodity price of electricity exceeds 3.8 cents per kilowatt- hour.

"Weighted Average Price" or **"WAP"** is the average Hourly Ontario Electricity Price weighted by load over the Settlement Period as determined by the IMO.

"Total Allocated Quantity of Energy Withdrawn" or **"TAQEW"** is the total electricity withdrawn from the IMO-controlled grid for use in Ontario during the Settlement Period.

- 9) The IMO will make quarterly MPMA payments to market participants based on the applicable Settlement Period to the end of the previous quarter, and taking into account all prior quarterly MPMA payments made with respect to the applicable Settlement Period. The IMO will adjust the payment for the final quarter of each Settlement Period to ensure that the sum of the quarterly MPMA payments for the applicable Settlement Period does not exceed the BPPR entitlement for the Settlement Period. If there is an overpayment of quarterly payments over a Settlement Period based on the BPPR entitlement for that Settlement Period, any such overpayment can be carried over to successive Settlement Periods to be offset against future payments.
- 10) The IMO will pay the pro rata share of the BPPR based on the allocated quantity of energy withdrawn for the applicable period by market participants who are receiving the fixed price under sections 79.4 and 79.5 of the *Ontario Energy Board Act, 1998* to the Ontario Electricity Financial Corporation.
- 11) The IMO will pay the pro rata share of the BPPR based on the allocated quantity of energy withdrawn for the applicable period by market participants who are not distributors and are not

receiving the fixed price under sections 79.4 and 79.5 of the *Ontario Energy Board Act, 1998* directly to those market participants or their assignees that are market participants where the market participants have assigned their MPMA Rebate.

- 12) The IMO will pay to distributors who are market participants, including host distributors on behalf of their embedded distributors, the pro rata share of the BPPR based on the share of energy withdrawn for the applicable period by consumers in the distributor's or embedded distributor's respective service areas who are not receiving the fixed price under sections 79.4 and 79.5 of the *Ontario Energy Board Act, 1998* for the MPMA Rebate and by customers of retailers who have assigned all or a portion of their entitlement to an MPMA Rebate to that retailer. In making these calculations and payments the IMO will rely on the information reported by the distributors to the IMO as required under Appendix D. Once the IMO has received the information from the distributors and disbursed the BPPR for that quarter in accordance with this Schedule B, there shall be no opportunity to correct any such information or provide any additional information and all amounts paid shall be final and binding and not subject to any adjustment.
- 13) For the quarterly periods from May 1, 2003 to January 31, 2005, after making the payments set out in 10), 11), and 12), the IMO is to pay any remaining Rebate to the Ontario Electricity Financial Corporation to offset in whole or in part the cost of providing the prices established under sections 79.4 and 79.5 of the *Ontario Energy Board Act, 1998* to consumers who are eligible to receive the prices established under sections 79.4 and 79.5 of the *Ontario Energy Board Act, 1998*. Any amounts returned to the IESO by distributors in accordance with their license conditions shall be paid over to the Ontario Electricity Financial Corporation.

For the Payment for the Period (February 1, 2005 to March 31, 2005)

- 14) For the Payment for the Period from February 1, 2005 to March 31, 2005, OPG is to make an MPMA Rebate payment to the IESO, consistent with OPG's MPMA license conditions, as calculated by the IESO and agreed to by OPG. The IESO and OPG may agree to appropriate true-up and carry forward mechanisms provided that these are consistent with forwarding the Rebate as soon as practicable.
- 15) For the Payment for the Period from February 1, 2005 to March 31, 2005 the MPMA rebate payments to market participants will be calculated and determined by the IESO as follows:

$$\text{BPPR} = [(\text{WAP} - \text{CAP}) \times 0.5 \times \text{TAQEW}]$$

Where:

"Business Protection Plan Rebate" or **"BPPR"** is the MPMA Rebate paid out to consumers who are not receiving the fixed price under sections 79.4, 79.5, and 79.16 of the *Ontario Energy Board Act, 1998*. The BPPR is to rebate half of the amount by which the weighted average commodity price of electricity exceeds 3.8 cents per kilowatt hour.

"Weighted Average Price" or **"WAP"** is the average Hourly Ontario Electricity Price weighted by load over the Settlement Period as determined by the IESO.

"Total Allocated Quantity of Energy Withdrawn" or **"TAQEW"** is the total electricity withdrawn from the IESO-controlled grid for use in Ontario during the Settlement Period.

- 16) The IESO will make the MPMA payment to market participants for the two month period ending March 31, 2005 taking into account all prior MPMA payments made in that Settlement Period.

- 17) The IESO will pay the pro rata share of the BPPR based on the allocated quantity of energy withdrawn for the applicable period by market participants who are receiving the prices established under sections 79.4, 79.5 and 79.16 of the *Ontario Energy Board Act, 1998* to the Ontario Electricity Financial Corporation.
- 18) The IESO will pay the pro rata share of the BPPR based on the allocated quantity of energy withdrawn for the applicable period by market participants who are not distributors and are not receiving the prices established under sections 79.4, 79.5, and 79.16 of the *Ontario Energy Board Act, 1998* directly to those market participants or their assignees that are market participants where the market participants have assigned their MPMA Rebate.
- 19) The IESO will pay to distributors who are market participants, including host distributors on behalf of their embedded distributors, the pro rata share of the BPPR based on the share of energy withdrawn for the applicable period by consumers in the distributor's or embedded distributor's respective service areas who are not receiving the prices established under sections 79.4, 79.5, and 79.16 of the *Ontario Energy Board Act, 1998* for the MPMA Rebate and by customers of retailers who have assigned all or a portion of their entitlement to an MPMA Rebate to that retailer. In making these calculations and payments the IESO will rely on the information reported by the distributors to the IESO as required under Appendix D. Once the IESO has received the information from the distributors and disbursed the BPPR for that quarter in accordance with this Schedule B, there shall be no opportunity to correct any such information or provide any additional information and all amounts paid shall be final and binding and not subject to any adjustment.
- 20) After making the payments set out in 17), 18), and 19), the IESO is to pay any remaining Rebate to the Ontario Electricity Financial Corporation to offset in whole or in part the cost of providing the prices established under sections 79.4, 79.5, and 79.16 of the *Ontario Energy Board Act, 1998* to consumers who are eligible to receive the prices established under sections 79.4, 79.5, and 79.16 of the *Ontario Energy Board Act, 1998*. Any amounts returned to the IESO by distributors in accordance with their license conditions shall be paid over to the Ontario Electricity Financial Corporation.

Replacement of the MPMA Rebate With A New Payment for the Period (April 1, 2005 to December 31, 2005)

- 21) For the Payment for the Period from April 1, 2005 to December 31, 2005, OPG is to make a single payment to the IESO, calculated as follows:

$$\text{Payment} = \text{Sum over all hours } [(\text{HOEP} - \$47) \times (\text{ONPA (output)} \times 0.85)]$$

Where:

ONPA or OPG's Non-Prescribed Assets are those generation assets operated and controlled by Ontario Power Generation, excluding Lennox Generating Station, that are not prescribed assets under section 78.1 of the *Ontario Energy Board Act, 1998* as amended by the *Electricity Restructuring Act, 2004*.

HOEP is the Hourly Ontario Energy Price as determined by the IESO.

ONPA (output) is the generation output from OPG's Non-Prescribed Assets generation assets over each hour of the period adjusted to take account of volumes sold through Transitional Rate Option contracts and forward contracts in effect as of January 1, 2005.

- 22) For the Payment for the Period from April 1, 2005 to December 31, 2005 the single payment to market participants will be equal to the payment calculated in 21) above.
- 23) The IESO will pay the pro rata share of the Payment based on the allocated quantity of energy withdrawn for the applicable period by market participants who are receiving the prices established under sections 79.4, 79.5 and 79.16 of the *Ontario Energy Board Act, 1998* to the Ontario Power Authority to be applied to the variance account established under section 25.33 (5) of the *Electricity Act, 1998* as amended by the *Electricity Restructuring Act, 2004*.
- 24) The IESO will pay the pro rata share of the Payment based on the allocated quantity of energy withdrawn for the applicable period by market participants who are not distributors and are not receiving the prices established under sections 79.4, 79.5, and 79.16 of the *Ontario Energy Board Act, 1998* directly to those market participants or their assignees that are market participants where the market participants have assigned their Payment.
- 25) The IESO will pay to distributors who are market participants, including host distributors on behalf of their embedded distributors, the pro rata share of the Payment based on the share of energy withdrawn for the applicable period by consumers in the distributor's or embedded distributor's respective service areas who are not receiving the prices established under sections 79.4, 79.5, and 79.16 of the *Ontario Energy Board Act, 1998* for the Payment and by customers of retailers who have assigned all or a portion of their entitlement to a Payment to that retailer. In making these calculations and payments the IESO will rely on the information reported by the distributors to the IESO as required under Appendix D. Once the IESO has received the information from the distributors and disbursed the Payment for the period in accordance with this Schedule B, there shall be no opportunity to correct any such information or provide any additional information and all amounts paid shall be final and binding and not subject to any adjustment.
- 26) After making the payments set out in 23), 24), and 25), the IESO is to pay any remaining amount of the Payment to the Ontario Power Authority to be applied to the variance account established under section 25.33 (5) of the *Electricity Act, 1998* as amended by the *Electricity Restructuring Act, 2004*.
- 27) With respect to its non-prescribed generating facilities, OPG shall maximize their value to the people of Ontario by operating those facilities in response to the price signals of the IESO-administered markets. OPG's conduct in the IESO-administered markets under this direction is subject to review by the Market Surveillance Panel of the Ontario Energy Board.

Replacement of the MPMA Rebate With A New Payment for the Period (January 1, 2006 to April 30, 2006)

- 28) For the Payment for the Period from January 1, 2006 to April 30, 2006, OPG is to make a single payment to the IESO, calculated as follows:

$$\text{Payment} = \text{Sum over all hours } [[(\text{HOEP} - \$47) \times (\text{ONPA (output)} \times 0.85)] + [(\text{PA (price)} - \$52) \times (\text{PA (amount)})]]$$

Where:

ONPA or OPG's Non-Prescribed Assets are those generation assets operated and controlled by Ontario Power Generation, excluding Lennox Generating Station, that are not prescribed assets under section 78.1 of the *Ontario Energy Board Act, 1998* as amended by the *Electricity Restructuring Act, 2004*.

HOEP is the Hourly Ontario Energy Price as determined by the IESO.

ONPA (output) is the generation output from OPG's Non-Prescribed Assets generation assets over each hour of the period adjusted to take account of volumes sold through Transitional Rate Option contracts and forward contracts in effect as of January 1, 2005 and volumes sold through the Pilot Auction administered by the Ontario Power Authority in the first half of 2006 with sales volumes commencing on April 1, 2006.

PA is the Pilot Auction administered by the Ontario Power Authority in the first half of 2006, which includes a limited amount of output from OPG's non-prescribed assets, with sales to commence on April 1, 2006.

PA (amount) is the hourly volume in MWh of OPG non-prescribed assets output sold through the Pilot Auction administered by the Ontario Power Authority in the first half of 2006 with sales commencing on April 1, 2006.

PA (price) is the weighted average auction price in \$/ MWh realized in each hour of the Period for the output of the limited amount of OPG non-prescribed assets output volume sold through the Pilot Auction administered by the Ontario Power Authority in the first half of 2006 with sales volumes commencing on April 1, 2006.

- 29) For the Payment for the Period from January 1, 2006 to April 30, 2006 the single Payment to market participants will be equal to the Payment calculated in 28) above.
- 30) The IESO will pay the pro rata share of the Payment based on the allocated quantity of energy withdrawn for the applicable period by market participants who are receiving the prices established under sections 79.4, 79.5 and 79.16 of the *Ontario Energy Board Act, 1998* to the Ontario Power Authority to be applied to the variance account established under section 25.33 (5) of the *Electricity Act, 1998* as amended by the *Electricity Restructuring Act, 2004*.
- 31) The IESO will pay the pro rata share of the Payment based on the allocated quantity of energy withdrawn for the applicable period by market participants who are not distributors and are not receiving the prices established under sections 79.4, 79.5, and 79.16 of the *Ontario Energy Board Act, 1998* directly to those market participants or their assignees that are market participants where the market participants have assigned their Payment.
- 32) The IESO will pay to distributors who are market participants, including host distributors on behalf of their embedded distributors, the pro rata share of the Payment based on the share of energy withdrawn for the applicable period by consumers in the distributor's or embedded distributor's respective service areas who are not receiving the prices established under sections 79.4, 79.5, and 79.16 of the *Ontario Energy Board Act, 1998* for the Payment and by customers of retailers who have assigned all or a portion of their entitlement to a Payment to that retailer. In making these calculations and payments the IESO will rely on the information reported by the distributors to the IESO as required under Appendix D. Once the IESO has received the information from the distributors and disbursed the Payment for the period in accordance with this Schedule B, there shall be no opportunity to correct any such information or provide any additional information and all amounts paid shall be final and binding and not subject to any adjustment.
- 33) After making the payments set out in 30), 31), and 32), the IESO is to pay any remaining amount of the Payment to the Ontario Power Authority to be applied to the variance account established

under section 25.33 (5) of the *Electricity Act, 1998* as amended by the *Electricity Restructuring Act, 2004*.

- 34) With respect to its non-prescribed generating facilities, OPG shall maximize their value to the people of Ontario by operating those facilities in response to the price signals of the IESO-administered markets. OPG's conduct in the IESO-administered markets under this direction is subject to review by the Market Surveillance Panel of the Ontario Energy Board.

OPG Rebate for the Period (May 1, 2006 to April 30, 2009)

- 35) For the Period from May 1, 2006 to April 30, 2009, OPG is to make quarterly Payments to the IESO, as calculated by the IESO and agreed to by OPG as follows:

Payment = Sum over all hours [(HOEP – ORL) x (ONPAO x 0.85 – PAA) + (PAP – PAORL) x PAA]

Ontario Power Generation's quarterly payments will be based on a cumulative calculation commencing May 1, 2006 to the end of each quarter less the same cumulative calculation to the end of the previous quarter. This will continue until the final quarter ending April 30, 2009. For greater certainty, where the payment formula results in an amount owing to OPG for any quarter, no such payment will be made to OPG by the IESO and any such amount will be carried forward into subsequent quarters.

Where:

ONPA or OPG's Non-Prescribed Assets are those generation assets operated and controlled by Ontario Power Generation assets in service as of January 1, 2006, excluding Lennox Generating Station and excluding stations whose generation output is subject to a contract with the Ontario Power Authority (OPA) in the form of a hydroelectric energy supply agreement [entered into by the OPA and OPG pursuant to a ministerial direction made under section 25.32 of the *Electricity Act, 1998*], that are not prescribed assets under section 78.1 of the *Ontario Energy Board Act, 1998* as amended by the *Electricity Restructuring Act, 2004*.

HOEP is the Hourly Ontario Energy Price as determined by the IESO.

ONPAO is the generation output from OPG's Non-Prescribed Assets, over each hour of the quarter adjusted to take account of volumes sold through forward contracts in effect as of January 1, 2005. For greater certainty, any output from ONPA resulting from fuel conversion by Ontario Power Generation in ONPA, or incremental output from ONPA resulting from refurbishment or expansion, or is subject to a contract with the OPA in the form of a hydroelectric energy supply agreement, [entered into by the OPA and OPG pursuant to a ministerial direction made under section 25.32 of the *Electricity Act, 1998*] is to be excluded from ONPAO.

Incremental Output is defined as:

generation output x (new total installed capacity – installed capacity as of January 1, 2006) / new total installed capacity.

ORL is the Ontario Power Generation Revenue limit.

For the period May 1, 2006 to April 30, 2007 ORL is equal to \$46/ MWh.

For the period May 1, 2007 to April 30, 2008 ORL is equal to \$47/ MWh.

For the period May 1, 2008 to April 30, 2009 ORL is equal to \$48/ MWh.

PA is the Pilot Auction administered by the Ontario Power Authority in the first half of 2006.

PAA is the volume in MWh over each hour in the quarter that is sold by Ontario Power Generation through the PA.

PAORL is the Pilot Auction Ontario Power Generation Revenue limit.

For the period May 1, 2006 to April 30, 2007 PAORL is equal to \$51/ MWh.

For the period May 1, 2007 to April 30, 2008 PAORL is equal to \$52/ MWh.

For the period May 1, 2008 to April 30, 2009 PAORL is equal to \$53/ MWh.

PAP is the weighted average auction price in \$/ MWh over each hour of the quarter realized for the PAA by Ontario Power Generation.

- 36) For the Payment for the Period from May 1, 2006 to April 30, 2009 quarterly payments made by the IESO to market participants will be equal to the quarterly Payment calculated in 35) above. In the event of any quarterly Payment calculated in 35) above being negative, no quarterly payment will be made by the IESO to market participants.
- 37) The IESO will pay the pro rata share of the Payment based on the allocated quantity of energy withdrawn for the applicable quarter by market participants who are receiving the prices established under sections 79.4, 79.5 and 79.16 of the *Ontario Energy Board Act, 1998* to the Ontario Power Authority to be applied to the variance account established under section 25.33 (5) of the *Electricity Act, 1998* as amended by the *Electricity Restructuring Act, 2004*.
- 38) The IESO will pay the pro rata share of the Payment based on the allocated quantity of energy withdrawn for the applicable quarter by market participants who are not distributors and are not receiving the prices established under sections 79.4, 79.5, and 79.16 of the *Ontario Energy Board Act, 1998* directly to those market participants.
- 39) The IESO will pay to distributors who are market participants, including host distributors on behalf of their embedded distributors, the pro rata share of the Payment based on the share of energy withdrawn for the applicable quarter by consumers in the distributor's or embedded distributor's respective service areas who are not receiving the prices established under sections 79.4, 79.5, and 79.16 of the *Ontario Energy Board Act, 1998* for the Payment. In making these calculations and payments the IESO will rely on the information reported by the distributors to the IESO as required under Appendix D. Once the IESO has received the information from the distributors and disbursed the Payment for the quarter in accordance with this Schedule B, there shall be no opportunity to correct any such information or provide any additional information and all amounts paid shall be final and binding and not subject to any adjustment.
- 40) After making the payments set out in 37), 38), and 39), the IESO is to pay any remaining amount of the Payment to the Ontario Power Authority to be applied to the variance account established under section 25.33 (5) of the *Electricity Act, 1998* as amended by the *Electricity Restructuring Act, 2004*.

- 41) With respect to its non-prescribed generating facilities, OPG shall maximize their value to the people of Ontario by operating those facilities in response to the price signals of the IESO-administered markets. OPG's conduct in the IESO-administered markets under this direction is subject to review by the Market Surveillance Panel of the Ontario Energy Board.
