Dear Nancy Marconi:

**Re: Enbridge Gas Inc. (Enbridge Gas)  
Ontario Energy Board (OEB) File No.: EB-2023-0092  
2022 Utility Earnings and Disposition of Deferral & Variance Account  
Balances Application  
Procedural Timeline Suggestion and Evidence Update**

---

On June 14, 2023, Enbridge Gas filed an application and evidence addressing 2022 utility earnings and the disposition and recovery of certain 2022 deferral and variance account balances (the Application) for all Enbridge Gas rate zones. On July 10, 2023, the OEB issued the Notice of Direction for the proceeding.

Given timeline conflicts and resource constraints between this proceeding, the EB-2022-0200 - 2024 Rebasing proceeding and the October 1, 2024 QRAM application, Enbridge Gas suggests commencing the discovery phase of this Application in October 2024 after the EB-2022-0200 argument phase is completed. Following this procedural timeline, Enbridge Gas understands that OEB approval in time for implementation with the January 1, 2024 QRAM may no longer be possible and proposes to clear the balances in these accounts with the first available QRAM application following the OEB's approval, as early as April 1, 2024.

In addition, enclosed please find an update to Exhibit B, Tab 2, Schedule 2. The original schedule filed was for years 2021 and 2020. The updated schedule is for years 2022 and 2021.

Sincerely,

Richard Wathy
