Dear Ms. Walli:

**EB-2007-0027 – Woodstock Area Transmission Reinforcement Project: Completion of the Environmental Study Report**

Hydro One is pleased to inform the Board that Hydro One has now fully completed all requirements of the Class EA process for the above project. In accordance with the *Class Environmental Assessment for Minor Transmission Facilities* approved by the Ministry of Environment, an Environmental Study Report was finalized and reviewed by stakeholders earlier this year.

The final Environmental Study Report was filed with the Ministry of the Environment on September 12, 2007. This filing completes the Class EA requirements.

Sincerely,

Susan E. Frank  
VP & Chief Regulatory Officer
