#### ***Explanatory Notes:***

- (1) "OEB-only" versions pertain to documents that contain irrelevant information and are being updated (in terms of the highlighting of irrelevant versus, if any, confidential information) and filed to assist the OEB's review of the updates made by Enbridge Gas pursuant to the Confidentiality Decision.
- (2) Confidential version did not require updates as the intervenors eligible to view the confidential information (pursuant to the OEB's *Practice Direction on Confidential Filings* and Confidentiality Decision) were already given access to the relevant confidential information.
- (3) There is no confidential version applicable as the redactions accepted by the OEB were based on irrelevance only.
- (4) Non-confidential version did not require updates as the redaction(s) requested by Enbridge Gas on the basis of irrelevance (as well as confidentiality due to commercial sensitivity) have been accepted by the OEB on the basis of confidentiality.
