To whom it may concern;

I am sending you this written message to express my disgust for you assisting the Ontario Gov't in hiding the cap & trade carbon tax from the customers of union gas. Union gas says they are told by the OEB to add the tax to the gas delivery charges; clearly this is a tax not a delivery charge. I also found out that this tax is subject to the HST another tax which means you charge tax on a tax. I do realize you cannot control the HST & what is charged on it.

I implore you to correct the hiding of the cap & trade carbon tax from the customers of union gas and show it in the same way the bill shows the HST.

If you have any questions do not hesitate to contact me.
