Dear Nancy Marconi:

Re: Enbridge Gas Inc. (Enbridge Gas, or the Company)
EB-2022-0200 - 2024 Rebasing – Interrogatory Response Update

Enbridge Gas filed its 2024 Rates Application and the majority of its supporting evidence on October 31, 2022 and the balance of its evidence on November 30, 2022. In this Application, Enbridge Gas requests approval of rates for the sale, distribution, transmission, and storage of gas commencing January 1, 2024. Enbridge Gas also applies for approval of an incentive rate-making mechanism (IRM) for the years from 2025 to 2028.

Enbridge Gas is filing an update to Exhibit I.9.1-SEC-220, which was originally filed on March 8, 2023. The response includes a description of the need to continue to maintain the Short-Term Storage and Other Balancing Services (Account No. 179-70) on an interim basis until such time that the outcomes of the OEB's decision in Phase 2 and/or Phase 3 related to storage are known and Gas Supply Plan is implemented. Continuation of the account on an interim basis allows for tracking and sharing of revenues from the sale of the excess utility storage space in the Union rate zones for the benefit of ratepayers.

Should you have any questions, please let us know.

Sincerely,

Vanessa Innis
