

**EB-2008-0222**

**NOTICE OF APPLICATION AND HEARING FOR AN  
ELECTRICITY DISTRIBUTION RATE CHANGE  
Canadian Niagara Power Inc. – Eastern Ontario Power**

Canadian Niagara Power Inc. – Eastern Ontario Power has filed an application with the Ontario Energy Board, (the “Board”) received on August 18, 2008 under section 78 of the *Ontario Energy Board Act, 1998*, S.O. 1998, c.15 (Schedule B), seeking approval for changes to the rates that Canadian Niagara Power Inc. – Eastern Ontario Power charges for electricity distribution, to be effective May 1, 2009. The Board has assigned the application File No. EB-2008-0222. The Board’s decision on this application may have an effect on all of Canadian Niagara Power Inc. – Eastern Ontario Power’s customers.

Any change to Canadian Niagara Power Inc. – Eastern Ontario Power’s distribution rates will cause Canadian Niagara Power Inc. – Eastern Ontario Power’s delivery charges to change. Delivery charges are one of four regular items on residential and general service customers’ electric bills and vary depending on the amount of electricity consumed.

In its application, Canadian Niagara Power Inc. – Eastern Ontario Power is seeking approval of \$2,359,739 as the 2009 revenue requirement it requires to provide electricity distribution services. On an equivalent basis, this compares with a Board-approved level of \$1,909,143 for 2006, the last year the rates were reviewed on a cost of service basis. During the interim period, the Board has approved adjustments to distribution rates.

Canadian Niagara Power Inc. – Eastern Ontario Power indicates that if the application is approved as filed, a residential customer consuming 1,000 kWh per month would experience an approximate 30.5% increase in their current delivery charges. This is a \$9.94 per month increase on their bill. A general service customer consuming 2,000 kWh per month and having a monthly demand of less than 50 kW would experience an

approximate 8.3% increase in their current delivery charges. This is a \$6.68 per month increase on their bill.

The proposed rates include a proposed harmonization of rates for the Canadian Niagara Power Inc. – Eastern Ontario Power and the Canadian Niagara Power Inc. – Fort Erie service areas. The application also seeks approval to eliminate the current General Service 50 to 4,999 kW – Time of Use class, in accordance with a previous Board decision (EB-2007-0594), and to re-classify any customers in that class to the General Service 50 to 4,999 kW class.
